Budgeting for Local Governments and Communities Douglas Morgan, Kent S. Robinson, Dennis Strachota, James A. Hough, 2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an

omission of important topics and typically a lack of exercises and datasets for student use Budgeting for Local Governments and Communities solves all of these problems The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting *Sessional Papers*, 1917 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement

Water Resources Paper Canada. Water Resources Division, 1925 *Out of Africa* Giovanni Carbone, 2017-12-15 The EU is struggling to cope with the so called migration crisis that has emerged over the past few years Designing the right policies to address immigration requires a deep understanding of its root causes Why do Africans decide to leave their home countries While the dream of a better life in Europe is likely part of the explanation one also needs to examine the prevailing living conditions in the large and heterogeneous sub Saharan region This Report investigates the actual role of political economic demographic and environmental drivers in current migration flows It offers a comprehensive picture of major migration motives as well as of key trends Attention is also devoted to the role of climate change in promoting migration and to intra continental mobility two thirds of sub Saharan migrant flows start and end within the region Two country studies on Eritrea and Nigeria are also included to get a closer sense of local developments behind large scale migration to Europe
