Space and Time in African Cinema and Cine-scapes Kenneth W. Harrow, 2022-06-28 This book is the first of its kind to bring basic notions of contemporary physics to bear on African cine scapes In this book renowned African cinema scholar Kenneth W Harrow presents unique new ways to think about space and time in film with a specific focus on African and African diasporic cinema Through a series of case studies he explores how cinema creates and represents time and space and more specifically how a cinema centered in African landscapes and figures accomplishes this He reflects on the issues and problems posed by scientists when faced with the basic questions of what space and time are and their solutions or conclusions giving both film studies and African studies scholars access to new ways to formulate their thinking about African cine scapes Working beyond the limits of a framework based in a postcolonial and cultural understanding of time and space Harrow demonstrates how a scientific understanding of time and space can open up new approaches to African cinema and cinema in general A unique interdisciplinary book that encourages brand new ways to approach cinematic texts and specifically African cine scapes

Music, Time, and Its Other Roger Savage, 2017-09-13 Music Time and Its Other explores the relation between the enigmatic character of our temporal experiences and music s affective power By taking account of competing concepts of time Savage explains how music refigures dimensions of our experiences through staking out the borderlines between time and eternity He examines a range of musical expressions that reply to the deficiency born from the difference between time and an order that exceeds or surpasses it and reveals how affective tonalities of works by Bach Carolan Debussy Schoenberg Messiaen and Glass augment our understanding of our temporal condition Reflections on the moods and feelings to which music gives voice counterpoint philosophical investigations into the relation between music s power to affect us and the force that the present has with respect to the initiatives we take Music Time and Its Other thus sets out a new approach to music aesthetics politics and the critical roles of judgment and imagination

On Verbs and Time Dorit Abusch, 1987 Moments of Soul John D. Sommer, 2000 Moments of Soul is a philosophical inquiry into four distinctive powers of humanity free choice personal identity honor and faith The theme through all four powers is the paradox of soul as the power of attraction between persons not the hidden attribute of an individual While the inquiry aims to develop our powers of mutual attraction it exposes some common mistakes of our times such as reducing mind to brain function mixing personal identity with ethnic pride and confusing faith with religious belief The method is to avoid making images or analogies in order to state clear problems and find their solutions *European Control Conference 1993*, 1993-06-28 Proceedings of the European Control Conference 1993 Groningen Netherlands June 28 July 1 1993

Turnaround Time Oscar Munoz, Brian DeSplinter, 2023-05-02 Wall Street Journal Bestseller Go behind the scenes with the CEO who led United Airlines remarkable turnaround Around the world and around the clock the people of United Airlines are locked in a struggle against time to ensure your aircraft lands and takes off for another flight safely and efficiently This

turnaround time is the heartbeat of an industry in which the margin for error is nil and success is measured by fractions of a second Turning around an aircraft and turning around an airline are very different challenges in most respects except one it takes a united team to perform it well In 2015 when Oscar Munoz took the helm of this iconic brand its culture was anything but united and its reputation was in free fall A merger with its onetime rival Continental had stalled operational and financial performance was badly trailing those of its competitors and the bonds of trust with shareholders customers and employees had reached a breaking point Setting out an ambitious plan to rejuvenate the company Oscar learned that there was nothing wrong at United that couldn't be fixed by championing what was right the employees themselves Meanwhile only a month into the job Oscar suffered a near fatal heart attack that set in motion a race against the clock to find a heart transplant to save his life even as he fought to salvage his vision for United's revival The health emergency might have been the end of the story until employees and union leaders rallied around Oscar inspiring him to pull through something he did within weeks following a successful procedure Oscar and the people he led both with new leases on life would go on to weather more turbulence overcoming battles with investors and navigating several PR crises including a global pandemic to deliver top tier operational performance strong returns to shareholders and ascending levels of customer satisfaction By the end of his tenure the people of United were finally flying together as one team defying pessimism from industry insiders and rekindling optimism from employees and the customers they served With candor humor and heartfelt wisdom Oscar reveals how he rose from humble immigrant origins to lead United Airlines through one of modern business's greatest corporate turnarounds He offers soulful much needed leadership lessons for today's world listening with empathy standing up for employees building durable cultures that are profitable because they're principled and advancing a vision for a genuinely inclusive economy for the future
