Blanke, 2019-01-05 The author of this book the German interlinguist and Esperanto researcher Detlev Blanke 1941 2016 has influenced the study of planned languages like no one else It is to a large extent due to his lifelong scholarly devotion to this area of research that Interlinguistics and Esperanto Studies Esperantology have become serious subjects of study in the academic world In his publications Blanke gives an overview of the history of language creation He describes the most important planned language systems and presents various systems of classification A special focus is put on Esperanto initiated by L L Zamenhof in 1887 Sabine Fiedler For Blanke a planned language was essentially a tool if it worked it was worthy of study and use if it failed to work he was interested in why though at the same time careful to avoid value judgments Blanke himself spoke a planned language namely Esperanto and recognised this language and language projects like it as arising out of a coherent theoretical base and addressing a recognisable problem Essentially independently of the sociolinguistic school in the west Blanke had reached a similar conclusion if a language phenomenon exists it is worthy of scholarly examination in itself Blanke was particularly interested in how planned languages related to ethnic languages how the artificiality of say Esperanto extended to indeed was synonymous with the artfulness of ethnic language and how planned language could solve taxonomic and terminological problems Humphrey Tonkin **Interlinguistics** Klaus
