carelessness and how we can revamp the industry's incentives to get the reliability and security we desperately need and deserve. You'll discover why the software industry still has shockingly little accountability and what we must do to fix that. Brilliantly written, utterly compelling and thoroughly realistic, *Geekonomics* is a long overdue call to arms. Whether you're software user, decision maker, employee or business owner, this book will change your life or even save it.

**The Alarming Cost of Insecure Badly Written Software and How to Finally Fix the Problem Once and for All**

Six billion crash test dummies: why you're at greater risk than you ever imagined. You pay the price: why consumers are legally and financially responsible for the mistakes of software manufacturers. Broken windows: how software promotes epidemic cyber crime and threatens national security. Who runs the show? Why software manufacturers fought against the U.S. Food and Drug Administration's attempts to protect the U.S. blood supply. Protecting national infrastructure: real incentives for transforming software manufacturing. Surviving the information superhighway: practical must-read advice in a world of insecure code.
