Inclusion as Social Justice ,2020-07-13 Inclusion as Social Justice Theory and Practice in African Higher Education discusses the extent to which education enables equitable social access for diverse student populations in the context of historical sidelining of indigenous knowledge systems and epistemic injustice of colonial epistemologies in Africa The goal is to theoretically unpack the social differentials and micro inequities that practically disempower diverse students in African higher education To this end the book features aspects of diversity such as gender rurality refugee status and disability in general with hearing and visual impairment as prime illustrations It is argued that despite the ethically defensible and socially just policy and structural interventions for transforming higher education meant to redress the legacy of colonial injustices urban universities present epistemological equity challenges for students from rural communities Similarly the opaque fate of students displaced from their home countries and currently studying in universities in host countries is analyzed The book illustrates the access case for gender and disability in higher education using empirical studies and examples from Tanzania Kenya Ethiopia Zimbabwe and South Africa Challenges facing students in higher education in these countries and the strategies the students devise to succeed in the institutions are analyzed *Quality in Higher Education as a Tool for Human Development* Patience Mukwambo,2019-04-11 Whilst many studies have explored how quality in higher education is conceptualised in the Global North less attention has been paid to quality in higher education in Africa and the Global South This book uses the human development and capabilities approach to demonstrate how quality in teaching and learning contributes to a range of benefits such as improved wellbeing economic outcomes political engagement and human capital formation amongst graduates The book interrogates the various dimensions of quality as well as factors that impact on the realisation of quality in universities and society at large Recognising that measures of quality are context and stakeholder specific the book uses the Zimbabwean context as a Global South case study It evaluates how quality is conceptualised and operationalised in Zimbabwean universities and how that impacts on teaching and learning policy and practice The book also demonstrates the need for economic resources for individuals and universities and emphasises the importance of a social and educational environment conducive to critical learning and post university opportunities This book will be of interest to researchers across Education African and Development Studies as well as to policymakers and practitioners with an interest in quality assurance and the promotion of teaching and learning in universities in the Global South **Future Foods** Rajeev Bhat,2021-12-04 Future Foods Global Trends Opportunities and Sustainability Challenges highlights trends and sustainability challenges along the entire agri food supply chain Using an interdisciplinary approach this book addresses innovations technological developments state of the art based research value chain analysis and a summary of future sustainability challenges The book is written for food scientists researchers engineers producers and policy makers and will be a welcomed reference Provides practical solutions for overcoming recurring sustainability

challenges along the entire agri food supply chain Highlights potential industrial opportunities and supports circular economy concepts Proposes novel concepts to address various sustainability challenges that can affect and have an impact on the future generations **Civil Society and the Party-state in Zimbabwe** Zenzo Moyo,2024-08-21 The book utilises

Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state civil society relations which established deep polarised relationships that can be traced back to the liberation struggle It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people s modes of existence One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles It uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries The College Handbook for Transfer Students,

Protection of Foreign Investments in Mongolia Bajar Scharaw,2017-11-07 This book analyses the adequacy of Mongolia s legal system for foreign investment protection by conducting a multi level assessment of international investment treaties domestic legislation of the host State and investor State contracts from an international comparative perspective The investigation distinguishes between three legal dimensions each of which offers both substantive legal guarantees for the protection of investments in the host State and provisions for the settlement of investment disputes by arbitration In the first dimension of Public International Law PIL Mongolia is bound by international investment treaties which offer investors an international law setting In the second dimension a special domestic investment law defines the domestic framework for the establishment promotion and protection of investments but also for the conclusion of investor State contracts These contracts in turn open a third legal dimension which represents a cross section through the PIL and domestic law dimensions of investment protection Following the development of a multi level system with legal dimensions that are not isolated but

rather interrelated and mutually reinforcing the book examines whether Mongolia's international investment treaties and domestic investment law reflect globally shared international and domestic standards of treatment and protection of foreign investments Lastly the author inquires whether the domestic laws applicable to investor State contracts in Mongolia allow investors and the Mongolian Government to agree on protective terms according to the not uncontroversial standards of international contract practice **The Mining Journal, Railway and Commercial Gazette** ,1892 Parliamentary Debates (Hansard).
