Miracles Patrick J. Hayes, 2016-01-11 Miracles give hope to the hopeless and exemplify the intersection of the divine and the mundane They have shaped world history and continue to influence us through their presence in films television novels and popular culture This encyclopedia provides a unique resource on the philosophical historical religious and cross cultural conceptions of miracles that cut across denominational lines Multidisciplinary in approach this informative yet entertaining encyclopedia covers major aspects of miraculous phenomena through more than 150 alphabetically arranged entries that document how humanity's belief in religious miracles over multiple places periods and faiths have affected society even changed the course of history Written for high school students and general readers the coverage enables readers to learn about different civilizations and cultures the controversies surrounding different beliefs and the often uncomfortable engagement of religion with science This single volume book provides a one stop ready reference that addresses a broad variety of subject matter on miraculous phenomena and guides further investigations into the subject Helpful illustrations and lucid explanations of the ancillary concepts associated with miraculous phenomena make learning about this topic more engaging Readers will be able to link the doctrinal concepts such as grace or prayer with the descriptions of miraculous events especially those associated with saints or holy objects The examination of the controversial aspects of different belief systems along with the book's balanced coverage of the interpretation of miracles will encourage students to weigh different explanations thus fostering the development of their critical thinking skills
