Schehr, Allen S. Weiss, 2013-05-13 More than a book about food alone French Food uses diet as a window into issues of nationality literature and culture in France and abroad Outstanding contributors from cultural studies literary criticism performance studies and the emerging field of food studies explore a wide range of food matters **Crime Scenes**, 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing

Such approaches can yield valuable insights. Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society. In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility. Concision, spareness, realism are the qualities singled out for praise. The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason. The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre. The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative. The patterns of reassurance, the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems, ambiguities and uncertainties of the self and of society. The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors. The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche. The role of the reader, spectator and critic in conferring meaning is a crucial one.

Re-Reading Zola and Worldwide Naturalism Marie-Sophie Armstrong, Riikka Rossi, Carolyn Snipes-Hoyt, 2013-07-26. *Re-Reading Zola and Worldwide Naturalism* continues the discussion of Émile Zola and French naturalism with examinations of unexplored areas of the founding father's project and legacy. In addition to offering essays on Zola's lesser known naturalist contemporaries, the volume extends the investigation of the naturalist literary current to include areas of Europe outside France as well as the Americas and Asia, tracking its persistence in various forms through the twentieth century and into the twenty-first. The authors pay particular attention to the ways naturalism was conceived and then received, including in other channels undergoing transformations in new social conditions and creating other versions of the basic precepts. This work features multidisciplinary and comparative approaches to the study of naturalism, paying tribute to Anna Gural Migdal, a Professor of French Literature and Film Studies at the University of Alberta in Canada who specializes in the visual aspect of Zola's Rougon-Macquart novels and the transfer of these strategies to naturalist film. She has been a leader in the field of Zola and naturalism in her role as president of the AIZEN for almost fifteen of its twenty years of existence.
