National library of Ireland,1883 **Charles Baudelaire** Arthur Symons,2020-08-14 Reproduction of the original Charles Baudelaire by Arthur Symons **Alchemy and Amalgam** Emily Salines,2004 Alchemy and Amalgam explores a relatively un researched area of the Baudelairean corpus his translations from English and relates them to the rest of his works It seeks to establish a link between translational and creative writing arguing for a reassessment of the place of translation in Baudelaire s writing method Rather than a sideline in Baudelaire s creative activities translation is thus shown to be a central form of dual writing at the core of his works Baudelaire s translations from English his constant rewriting of pre existing material including his own the doublets the transpositions d art and the art criticism are all based on an approach to writing which is essentially derivative but also transformative Thus the Baudelairean experiment illustrates the limits of romantic notions of originality creativity and genius reminding us that all writing is intrinsically intertextual It also shows the complexity of translation as a form of creation at the core of modern writing The book is one of the first of its kind to link the study the translational activity of a major writer to his creative writings It is also one of the first to provide an integrated presentation of French 19th century translation approaches and to link them to questions of copyright and authorship in the context of the rise of capitalism and romantic views of creation and genius It offers therefore a new perspective both on translation history and on literary history Alchemy and Amalgam will be of interest to students of translation comparative literature and French studies **The National Union Catalog, Pre-1956 Imprints** Library of Congress,American Library Association.
