

Prompt: Discuss the effects of violent protests on a nation's political landscape and society, using an example from history.

Violent protests, although often born from a sense of desperation and a lack of perceived alternatives, can leave a significant imprint on a nation's political landscape and society. One such instance can be seen in the French Revolution, which occurred from 1789 to 1799.

During this time, France was in a state of economic hardship and social inequality. The widespread discontent among the lower classes ultimately sparked violent protests and uprisings, the most notable being the storming of the Bastille on July 14, 1789. This event, which started as a protest, quickly escalated into a violent siege that resulted in the fall of the prison, a symbol of the monarchy's absolute and arbitrary power.
