Middle School Digital Art Curriculum:

Art and Technology Sheyda Ardalan, Cheryl Adler Iozzo, 2021 Learn how to use digital technologies to provide a rich new entry point for art students to make meaning express their thoughts and visualize their ideas Through the lens of artistic development this book offers a wide ranging scope and sequence of over 50 technology based art lessons Each lesson plan includes the art activity learning level lesson objective developmental rationale list of materials and suggested questions to motivate and engage students The text also includes images of student work students at work and the environment of the classroom many in full color The authors pedagogical approach begins with inquiry based exploratory activities followed by more in depth digital art lessons that relate to students interests and experiences With knowledge of how technology can be used in educationally sound ways educators are better equipped to advocate for the technological resources they need By incorporating technology into the art classroom as a stand alone art medium or in conjunction with traditional studio materials teachers and students remain on top of 21st century learning with increased opportunities for innovation Book Features Guidance for technology use in the K 12 art curriculum including specifics for adopting sequential strategies in each grade Cost effective strategies that place teachers and students in a position to explore and learn from one another Developmental theories to help art teachers and curriculum designers successfully incorporate new media Engaging digital art lessons that acknowledge the role technologies play in the lives of today s young people Novel approaches to art education such as distance learning animation 3D printing and virtual reality

Developing a Unit of Study on Digital Art Holly Berndt, 2016 This capstone project includes a study of how electronic technology can be integrated into the art classroom to promote student engagement and meaningful art projects What kinds of digital art can students create What are the outcomes of using electronic technology in an art classroom In order to fully understand these research questions I reviewed scholarly literature that focuses on the benefits challenges and creative use of technology in the art classroom In my action research study I used a backward design approach to create a digital art curriculum unit for my middle school students During the unit my students used a variety of electronic technology and apps to create three digital art projects Some of my findings were expected but still interesting while others were unanticipated My students were generally interested in using electronic technology during the art making process and were well behaved during the digital art unit I was also surprised to see how impressed and supportive my school administrators were of the digital art unit My last finding was that students began to feel more comfortable and understanding of electronic technology towards the end of the digital art unit The results of my research including lesson plans PowerPoint presentations photographs of students digital art work and assessment strategies are available on my website at http://www.hollyberndt.com/digital_art.html
