had been one of the major facts in European history since the Middle Ages Stretching from the Adriatic to the Indian Ocean the Empire was both a great political entity and a religious one with the Sultan ruling over the Holy Sites and as Caliph the successor to Mohammed Yet the Empire's fateful decision to support Germany and Austria Hungary in 1914 doomed it to disaster breaking it up into a series of European colonies and what emerged as an independent Saudi Arabia Ryan Gingeras's superb new book explains how these epochal events came about and shows how much we still live in the shadow of decisions taken so long ago Would all of the Empire fall to marauding Allied armies or could something be saved In such an ethnically and religiously entangled region what would be the price paid to create a cohesive and independent new state The story of the creation of modern Turkey is an extraordinary bitter epic brilliantly told here **Hagia Sophia in the Long**

The Emergence of Modern Istanbul Murat Gül, 2009-08-30 In its transition from 18th century capital of the Ottoman Empire to economic powerhouse of the Turkish Republic the city of Istanbul has been transformed beyond recognition After the establishment of the Republic Turkey increasingly turned to the West for ideas about how to create shape and direct the development of a modern culture This desire was felt most strongly in Istanbul Turkey's most populous city Its status as the capital of the Ottoman Empire and

later the economic hub of Turkey made Istanbul a forum for the different regimes to display their political ideological and social policies in the context of the built environment Some modernisation policies never came to fruition such as the unsuccessful late nineteenth century attempt by young Ottoman bureaucrats to initiate planning reforms at a time when the Empire was on the verge of collapse The new Turkish Republic at first neglected the old Ottoman capital and later attempted to make it conform to its secular political ideology After World War II Istanbul entered a new era in modernisation with the Democratic Party government conducting a large scale re design of Istanbul s urban form in order to show Turkey as a major political and economic force in post war Europe and the Middle East The scale of this modernisation process mirrored the spectacular transformation of Paris a century before thousands of buildings were demolished boulevards were carved out within the old city and whole new residential neighbourhoods were created In telling the story of this dramatic transformation Murat G l investigates and traces the impact of these changing policies on the very fabric of the city itself in its streets buildings and landscapes and in the process provides new insights into the history of Turkey **A Companion to Early Modern Istanbul** Shirine Hamadeh,Çiğdem Kafescioğlu,2021 This multi disciplinary volume reflects the wealth of recent scholarship devoted to early modern Istanbul It embraces manifold perspectives on the city through new subjects and questions while offering fresh approaches to older debates crisscrossing the socioeconomic political cultural environmental and spatial *Miezul noptii la Pera Palace* Charles King,2017 Pera Bülent Özükan,2001
