

Operation

Switching on and off automatically

You can programme the oven to switch off automatically or on and off automatically.

For automatic switching off you need to enter the duration or the duration and a finish time.

The maximum duration which can be set is 12 hours.

We recommend using automatic switching on and off when roasting. However, do not delay the start for too long when baking as the cake mixture or dough will dry out, and the raising agents will lose their effectiveness.

Entering a cooking duration

- Place the food in the oven.
- Select the required function and set the temperature.

The oven heating, lighting and cooling fan will switch on.

- Touch the > sensor repeatedly until triangle ▲ is underneath the 😊 (Duration) symbol.

"0:00" appears in the display.

- Touch the OK sensor.
- Whilst triangle ▲ is flashing, enter the required duration in hours and minutes with the > sensor.

If no other symbol is selected, the cooking duration will be seen counting down in the display.
