Ministry Of Education Ethiopia Website Abstract:

Secondary Education in Ethiopia Rajendra Joshi,Adriaan Verspoor,2012-11-01 This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low to middle income economy The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students including those who may not pursue higher education

Higher Education in Ethiopia Tebeje Molla,2018-01-18 This book focuses on higher education in Ethiopia analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years Drawing on empirical data generated through interviews policy reviews and focus group discussions it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo political peripherality In a departure from conventional studies that consider policy a response to social problems the book takes a critical perspective to show the constitutive role of policy and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher education Not only does the book problematise the framing of the problem of inequality in the system it also outlines strategies for designing transformative equity instruments In explaining structural factors of inequality and equity provisions the book productively combines sociological concepts with historical accounts and political economy insights Given the increased economic optimism associated with higher education in sub Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region this is a timely and important contribution that sheds light on the social justice implications and consequences of such changes It offers fresh accounts of largely neglected qualitative cases of inequality making it a valuable read for students and researchers in the areas of Ethiopian education policy studies international and comparative education and international development

Latin Lineages Regine May,Catherine Conybeare,2025-12-04 This book traces lineages of intertextuality and reception between Latin poets of the first century BC with prose authors of the second century BC and their later reception in English literature The authors of each chapter explore how writers like Catullus or Vergil Horace or Apuleius engage intertextually with each other and are themselves subject to the reception of later periods Recurring strands like a focus on philosophy notably Epicureanism and history notably Roman history and gender politics can be traced into more modern periods where authors as distinctive as Alexander Pope Italian fascists or queer adaptors of Latin poetry continue to explore the same challenges as their Roman ancestors by returning again and again to these ancient texts and similar themes of reception Its readers will be able to track recurring themes through Latin authors who read their predecessors and are themselves objects of reception from antiquity to the modern world While each chapter is a standalone study of a specific Latin author the book showcases the shapes and forms in which reception can be studied ranging from close intertextual readings and learned allusions to playful creative engagements with and homages to these Roman authors **Abstracts ...
