Allan Quatermain, the sequel to King Solomon's Mines, is also available from Summit Classic Press in a handsome large print companion edition. ISBN 13 978 1501032868 ISBN 10 1501032860 When King Solomon's Mines was first published in 1885, it quickly became the best-selling book of the year, with the publisher scrambling to print copies fast enough to meet demand. Ironically, the book, which was written in less than four months and perhaps in as little as six weeks, had been rejected by numerous publishers who believed its extreme novelty left it without commercial viability. Indeed, it was both the first example of what became the popular lost world literary genre and the first English adventure novel set in Africa. The use of the first person subjective viewpoint and a narrative composed in familiar conversational style were radical departures from the ornate language and omniscient viewpoint of the books of the day, which were for the most part obsessively focused on social class in England. The basic outline of the tale, now a staple of adventure fiction, tells of the search through an unexplored region of Africa for the lost brother of Sir Henry Curtis. Curtis and his companion, Captain Good, search out Allan Hunter Quatermain, an old hand at African big game hunting, who agrees to lead the expedition despite his belief that they will likely never return. Upon realizing that Curtis' brother was searching for the lost mines of the biblical King Solomon, Quatermain produces a crude map and a letter supposedly written by a Portuguese explorer claiming to have found the

fabulous diamond mines The expedition is joined by the mysterious Umbopa anxious to go along and willing to work as a bearer Reaching the fabled destination they discover a lost civilization and see Umbopa's secret revealed Sir Henry Rider Haggard 1856-1925 wrote *King Solomon's Mines* on a bet a five shilling wager with his brother that he could write a story half as good as *Treasure Island* Haggard had traveled extensively in Africa as a minor government staff official during the Zulu and Boer Wars and the Allan Quatermain character was based in large part on the colorful adventurers he encountered there Other influences on the story included the recent discovery of diamond fields and the ruins of ancient civilizations in Africa Returning to England Haggard married and became a member of the bar but soon took up writing full time *King Solomon's Mines* was remarkable not only for its originality but for Haggard's attitude toward native Africans Unusual for writers in the colonial era Haggard declared that many Africans were more noble and admirable than many of the Europeans who arrived in Africa and his novels include complex and heroic native characters as well as evil and barbaric natives *King Solomon's Mines* even includes an interracial romance Haggard penned several popular novels while traveling to various parts of the Empire in the cause of land reform and like many Victorians dabbled in spiritualism and the paranormal Haggard's most enduring characters Allan Quatermain and Ayesha were brought together in *She* and Allan Haggard's last major work

**King Solomon's Mines** 1885 is a popular novel by the Victorian adventure writer and fabulist Sir H Rider Haggard. It tells of a search of an unexplored region of Africa by a group of adventurers led by Allan Quatermain for the missing brother of one of the party. It is the first English adventure novel set in Africa and is considered to be the genesis of the Lost World literary genre. The book was first published in September 1885 amid considerable fanfare with billboards and posters around London announcing 'The Most Amazing Book Ever Written'. It became an immediate best seller. By the late 19th century explorers were uncovering ancient civilisations around the world such as Egypt's Valley of the Kings and the empire of Assyria. Inner Africa remained largely unexplored and *King Solomon's Mines* the first novel of African adventure published in English captured the public's imagination. The King Solomon of the book's title is the Biblical king renowned both for his wisdom and for his wealth. A number of sites have been suggested as the location of his mines including the workings at the Timna valley near Eilat. Research published in September 2013 has shown that this site was in use during the 10th century BC as a copper mine possibly by the Edomites, 2-3 who the Bible reports were rivals of and frequently at war with King Solomon.

Allan Quatermain, an adventurer and white hunter based in Durban in what is now South Africa, is approached by aristocrat Sir Henry Curtis and his friend Captain Good seeking his help finding Sir Henry's brother who was last seen travelling north into the unexplored interior on a quest for the fabled King Solomon's Mines. Quatermain has a mysterious map purporting to lead to the mines but had never taken it seriously. However, he agrees to lead an expedition in return for a share of the treasure or a stipend for his son if he is killed along the way. He has little hope they will return alive but reasons that he has already outlived most people in his profession so dying in this manner at least ensures that his son will be provided for. They also take along a mysterious native Umbopa who seems more regal, handsome and well spoken than most porters of his class but who is very anxious to join the party.
