Limpopo Province Geography PNovember 2013:

Nature Conservation in Southern Africa, 2018-11-26 Nature conservation in southern Africa has always been characterised by an interplay between Capital specific understandings of Morality and forms of Militarism that are all dependent upon the shared subservience and marginalization of animals and certain groups of people in society Although the subjectivity of people has been rendered visible in earlier publications on histories of conservation in southern Africa the subjectivity of animals is hardly ever seriously considered or explicitly dealt with In this edited volume the subjectivity and sentience of animals is explicitly included The contributors argue that the shared human and animal marginalisation and agency in nature conservation in southern Africa and beyond could and should be further explored under the label of sentient conservation Contributors are Malcolm Draper Vupenyu Dzingirai Jan Bart Gewald Michael Glover Paul Hebinck Tariro Kamuti Lindiwe Mangwanya Albert Manhamo Dhoya Snijders Marja Spierenburg Sandra Swart Harry Wels Long Walk to Nowhere Philip Frankel, 2017-07-05 The end of apartheid has triggered massive illegal immigration into South Africa from all parts of Africa and beyond Along with urbanization and internal migration the end of apartheid has encouraged human smuggling and the trafficking of men women and children into the commercial sex market and various sectors of the economy from mining to agriculture and the service industries Long Walk to Nowhere analyses the impact of these developments on Nelson Mandela's vision for a democratic South Africa Frankel explores human rights the political culture public health the criminal justice system and institutional development as South Africa moves into its third decade after liberation Using migration and human trafficking as barometers for democratic success Frankel establishes that South Africa has become more unstable under two post Mandela presidencies The book covers the three major modes of human trafficking commercial sex trafficking child trafficking and labour trafficking It also looks at the dynamics of trafficking with a perpetrator focus the complex issues of dominance and the policy responses in light of South Africa's first comprehensive counter trafficking legislation designed for implementation in late 2015 Long Walk to Nowhere blends South African experiences with contemporary mass political movements which challenge human rights and good governance on a world wide basis Inequality and Development Challenges Maria Clara Couto Soares, Mario Scerri, Rasigan Maharajh, 2018-10-24 This series of books brings together results of an extensive research programme on aspects of the national systems of innovation NSI in the five BRICS countries Brazil Russia India China and South Africa It provides a comprehensive and comparative examination of the challenges and opportunities faced by these dynamic and emerging economies In discussing the impact of innovation with respect to economic geopolitical socio cultural institutional and technological systems it reveals the possibilities of new development paradigms for equitable and sustainable growth This volume analyses the co evolution of inequality and NSI across the BRICS economies It reveals the multi dimensional character of inequality in going beyond its income aspect to include assets access to basic services infrastructure knowledge race gender ethnicity and geographic

location In advancing valuable policy recommendations the book argues that inequalities must be factored in development strategies given that benefits of innovation are not automatically distributed equally Original and detailed data together with expert analyses on wide ranging issues make this book an invaluable resource for researchers and scholars in economics development studies and political science in addition to policy makers and development practitioners interested in the BRICS countries

The Sustainable City IX N. Marchettini, C.A. Brebbia, R. Pulselli, S. Bastianoni, 2014-09-23 Containing the proceedings of the 9th International Conference on Urban Regeneration and Sustainability this book addresses the multi disciplinary aspects of urban planning a result of the increasing size of cities the amount of resources and services required and the complexity of modern society Most of earth s population now lives in cities and the process of urbanisation still continues generating many problems deriving from the drift of the population towards them These problems can be resolved by cities becoming efficient habitats saving resources in a way that improves the quality and standard of living The process however faces a number of major challenges related to reducing pollution improving main transportation and infrastructure systems New urban solutions are required to optimise the use of space and energy resources leading to improvements in the environment i e reduction in air water and soil pollution as well as efficient ways to deal with waste generation These challenges contribute to the development of social and economic imbalances and require the development of new solutions Large cities are probably the most complex mechanisms to manage However despite such complexity they represent a fertile ground for architects engineers city planners social and political scientists and other professionals able to conceive new ideas and time them according to technological advances and human requirements The challenge of planning sustainable cities lies in considering their dynamics the exchange of energy and matter and the function and maintenance of ordered structures directly or indirectly supplied and maintained by natural systems Topics covered include Urban strategies Planning development and management Urban conservation and regeneration The community and the city Eco town planning Landscape planning and design Environmental management Sustainable energy and the city Transportation Quality of life Waterfront development Case studies Architectural issues Cultural heritage issues Intelligent environment and emerging technologies Planning for risk Disaster and emergency response Safety and security Waste management Infrastructure and society Urban metabolism

The Promise of Planning Philip Harrison, Alison Todes, 2024-07-10 The Promise of Planning explores the experience of planning internationally since the global financial crisis focusing on South Africa The book is a response to a decade plus in which state led planning has re emerged as a putative means for achieving developmental goals as indicated in global initiatives such as the New Urban Agenda and where planning in South Africa has consolidated in terms of its legal and policy basis However the return of planning is happening in an inauspicious context with economic fragilities technological shifts political populism institutional complexities and more threatening to upturn the new promise of planning The book provides a careful analytical account of planning in South Africa and how and why its promises have been

difficult to achieve Building on the authors previous book Planning and Transformation the book sheds light on planning as an increasingly complex and diverse governmental practice within a perpetually changing world It can be used as a resource for planners who must make good on the new promise of planning while navigating the risks and threats of the contemporary world as well as students and faculty interested in international planning debates and the South African case

Global Foodscapes Alistair Fraser, 2016-07-22 What we eat as well as how it is produced processed moved sold and used by our bodies seems to matter like never before Global Foodscapes takes on this topicality and asks readers to think about how we are all involved in the making of an odd and in many ways troubling and contested food economy It explores how food is conceived traded grown reared processed sold and consumed investigates what goes wrong along the way and assesses what diverse people around the world are doing to fix these faults The text uses a carefully crafted framework that explores the interaction of five forms of oppression and five means of resistance as they are worked out over five stages in the food economy It draws on case studies from around the world that illuminate key issues about food in today s world examines how oppression affects diverse people caught up in the food economy and highlights how individuals groups and institutions such as governments but also firms are trying to improve how we interact with the food system Global Foodscapes is a highly accessible and useful text for undergraduate students interested in the global food economy The global range of case studies examples and reference points as well as its original framework allows the text to speak to diverse audiences and generate debate about whether anything and if so what needs to be done about the food system we depend upon so heavily Additional materials such as suggested readings and discussion points help students consider the issues at hand and conduct initial and more detailed research on today s food economy
