Blackjack, also known as Twenty-one, is one of the world's most popular casino games. In Blackjack, the dealer deals cards to seven players. These rules vary from casino to casino, but all versions of the game are based on the same principles. The goal is to get a 21 or closer to that value than the dealer.

Each player has two cards. If the player needs the dealer they receive another card. If they have 17 or more, the dealer must stand. The dealer then deals the rest of the cards to the players. The players must then decide whether to hit or stand. The dealer then deals the rest of the cards to the players. The players must then decide whether to hit or stand.

Each turn and reveals the dealer's additional card. All the cards are allocated according to the players and dealer's results. The game is known for its complex strategy, but players can learn the rules of the game and do help new players understand the strategy.
