Life Orientation Exam Paper 2014:

Ethics in the Zhuangzi Xiangnong Hu, Yong Huang, 2024-10-16 This book delves into a broad range of hitherto unresolved issues related to Zhuangzi's ethics which include but are not limited to the fundamental question of whether Zhuangzi should be regarded as a moralist in the ordinary sense and what Zhuangzi's views on topics such as equality, moral relativism, good life, intersubjective relations and social harmony really are. The twelve contributors to this book deliberate on these issues in six debates centering on recent influential publications in the field. In each debate the relevant publications will be first challenged by their critic and then defended by their author through which different and competing interpretations of Zhuangzi's ethical themes will directly confront each other. These author-meets-critic debates will not only reflect what is currently at stake in discussing Zhuangzi's ethics but also engage and enrich the state of the field today. This volume serves as a good companion to scholars as well as graduate level students who are interested in gaining philosophical and ethical insights from Zhuangzi and Chinese philosophy in general.

Capturing Social and Behavioral Domains and Measures in Electronic Health Records Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Recommended Social and Behavioral Domains and Measures for Electronic Health Records, 2015-01-08

Determinants of health like physical activity levels and living conditions have traditionally been the concern of public health and have not been linked closely to clinical practice. However, if standardized social and behavioral data can be incorporated into patient electronic health records (EHRs), those data can provide crucial information about factors that influence health and the effectiveness of treatment. Such information is useful for diagnosis, treatment choices, policy, health care system design and innovations to improve health outcomes and reduce health care costs.

Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2 identifies domains and measures that capture the social determinants of health to inform the development of recommendations for the meaningful use of EHRs. This report is the second part of a two-part study. The Phase 1 report identified 17 domains for inclusion in EHRs. This report pinpoints 12 measures related to 11 of the initial domains and considers the implications of incorporating them into all EHRs. This book includes three chapters from the Phase 1 report in addition to the new Phase 2 material. Standardized use of EHRs that include social and behavioral domains could provide better patient care, improve population health and enable more informative research. The recommendations of *Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2* will provide valuable information on which to base problem identification, clinical diagnoses, patient treatment outcomes assessment and population health measurement.

The Socratic Handbook Michael Noah Weiss, 2015

In this book, 34 renowned philosophical practitioners from 20 different countries present a variety of dialogue methods for philosophical practice which have never before been published in such a compact and compiled form. By having Socrates and his method of maieutics, the art of midwifery of the

soul as he called it as one of its main sources of inspiration the book offers different methodological approaches in order to prompt people to wonder to reflect to change perspective and to think differently in short to make people philosophize about life and the way they live it Series Report of the Global Ethic Initiative Austria Schriftenreihe der Initiative Weltethos Österreich Vol 9 Subject Philosophy

Promoting Equitable Access to Education for Children and Young People with Vision Impairment Mike Mclinden, Graeme Douglas, Rachel Hewett, Rory Cobb, Sue Keil, Paul Lynch, Joao Roe, Jane Stewart Thistlethwaite, 2022-09-30. Promoting Equitable Access to Education for Children and Young People with Vision Impairment offers a suitable vocabulary and developmental route map to examine the changing influences on promoting equitable access to education for learners with vision impairment in different contexts and settings throughout a given educational pathway. Bringing together a wide range of perspectives, this book argues that inclusive educational systems and teaching approaches should focus upon promoting and sustaining a balanced curriculum. It provides an analysis of how a suitable curriculum balance can be promoted and sustained through the stages of a given educational pathway to ensure equitable access and progression for all learners with vision impairment. The authors draw on the United Kingdom as a country study to illustrate the complex ecosystem within which learners with vision impairment are educated. Structured around a framework which provides a conceptually coherent and practical balance between universal and
