Disciplining the Transnational Mobility of People M. Geiger, A. Pécout, 2013-10-18 This volume scrutinizes new developments in contemporary mobility and migration politics and shows that they are based on a mix of traditional coercive interventions and less repressive and indirect practices

Affective Economies, Neoliberalism, and Governmentality Anne-Marie d'Aoust, 2017-10-02 Advanced capitalism is characterized by a level of symbolic production that not only results in a dematerialization of labor but also increasingly relies on highly emotional components ranging from consumption desire to workforce management Feelings as varied as love anger and desire are integral to neoliberal processes though not in unproblematic and monolithic ways Whereas some accounts decry capitalism's hold on the emotional realm as the commodified search for soul mates through online dating sites or Starbucks promotion of fair trade coffee suggest others counter that emotions represent a privileged site of resistance to market rationality Relying on different case studies ranging from drone strikes the 2008 economic crisis in Ireland and marriage migration management this volume builds on this productive tension between subjection and resistance through the lenses of the concept of governmentality Developed by Michel Foucault governmentality sheds light on the ways in which economic and political life are now being managed through logics of security and economic calculations This volume explores how individuals might become emotionally attached to regimes of power that are detrimental to them how neoliberal processes are concomitant with the valorization of certain emotional dispositions and how affective economies might provide a site of resistance This book was published as a special issue of *Global Society*

Transnational Marriage and Partner Migration Anne-Marie D'Aoust,2022-02-11 This multidisciplinary collection investigates the ways in which marriage and partner migration processes have become the object of state scrutiny and the site of sustained political interventions in several states around the world Covering cases as varied as the United States Canada Japan Iran France Belgium or the Netherlands among others contributors reveal how marriage and partner migration have become battlegrounds for political participation control and exclusion Which forms of attachments towards the family the nation or specific individuals have become framed as risks to be managed How do such preoccupations translate into policies With what consequences for those affected by them in terms of rights and access to citizenship The book answers these questions by analyzing the interplay between issues of security citizenship and rights from the perspectives of migrants and policymakers but also from actors who negotiate encounters with the state such as lawyers non governmental organizations and translators L'horreur européenne Frédéric Viale,2010 **Lectures françaises** ,2008

de proposer une sociologie des couples binationaux partir de leurs expériences de leurs revendications et de leurs caractéristiques sociales gé nationalité sexe et statut socio économique Cette sociologie montre que contrairement à l'image stigmatisante d'une escroquerie sentimentale mais aussi l'image associative de relations amoureuses d'adultes de tout intérêt leurs relations conjugales se fondent souvent sur une domination maternelle et des dépendances affectives entre hommes et femmes et entre Français et étrangers Caractéristiques des conjugalités binationales ces dépendances que l'on peut saisir partir de la notion de changer valent également les mécanismes à l'œuvre dans les relations conjugales ordinaires
