Linguistics, 1969 **Historical Linguistics and Endangered Languages** Patience Epps, Danny Law, Na'ama Pat-El, 2021-07-28 This collection showcases the contributions of the study of endangered and understudied languages to historical linguistic analysis and the broader relevance of diachronic approaches toward developing better informed approaches to language documentation and description The volume brings together perspectives from both established and up and coming scholars and represents a globally and linguistically diverse range of languages The collected papers demonstrate the ways in which endangered languages can challenge existing models of language change based on more commonly studied languages and can generate innovative insights into linguistic phenomena such as pathways of grammaticalization forms and dynamics of contact driven change and the diachronic relationship between lexical and grammatical categories In so doing the book highlights the idea that processes and outcomes of language change long held to be universally relevant may be more sensitive to cultural and typological variability than previously assumed Taken as a whole this collection brings together perspectives from language documentation and historical linguistics to point the way forward for richer understandings of both language change and documentary descriptive approaches making this key reading for scholars in these fields **English Linguistics, 1500-1800**, 1791 **The Oxford English Dictionary**, 1989

Black Bell Alison C. Rollins, 2024-04-23 Sweeping from the eighteenth century to futurist fabulations *Black Bell* harmonizes poetry with performance art practices in an investigation of fugitivity Inspired by the nineteenth century image of an enslaved woman wearing iron horns and bells Alison C Rollins's *Black Bell* continues an exploration of cataloging individual experience and collective memory As Rollins sets out to resuscitate and embody the archive we see a chorus of historical figures like Eliza Harris Henry Box Brown and Lear Green readers can listen in as Phillis Wheatley takes a Turing test or venture through Dante's *Inferno* remixed with Wu Tang Clan's 36 Chambers Poems travel across time and space between the eighteenth century and futuristic fabulations vibrating with fugitive frequencies sounds of survival and nerve wracking notes tuned toward love and liberation *Black Bell* navigates what it means to be both invisible and spectacle hidden and on display allowing lyric language to become the material for fashioning wearable sculptures akin to Nick Cave's soundsuits Integrating performance art practices metalwork and sonic *Black Bell* becomes multimedia meditation on freedom
