

INTRODUCTION

Assembled in this book are operating and lubrication instructions for the Farmall 140, Farmall 140 Hi-Clear, and International 140 Tractors. This material has been prepared in detail in the hope that it will help you to better understand the correct care and efficient operation of your tractor.

If you should need information not given in this manual or in the tractor Preventive Maintenance Manual or require the services of a trained mechanic, get in touch with the International Harvester dealer in your locality. Dealers are kept informed on the latest methods of servicing tractors. They carry stocks of IH parts, and are backed in every case by the full facilities of a nearby International Harvester District Office.

Throughout this manual the use of the terms LEFT, RIGHT, FRONT, and REAR must be understood to avoid confusion when following instructions. LEFT and RIGHT indicate the left and right sides of the tractor when facing forward in the driver's seat. Reference to FRONT indicates the radiator end of the tractor, and REAR the drawbar end of the tractor. See *Illustr. 3*.

Illustr. 3

The illustrations in this manual are numbered to correspond with the pages on which they appear; for example, *Illustrs. 3, 3A and 3B are on page 3*.

In order to provide a tractor equipped as nearly as possible to suit each customer's needs, a variety of extra equipment and accessories is available. Refer to page 49.

Where instruction on these items is required, it is included in the operating and maintenance instructions for the tractor. Disregard the instructions for equipment not on your tractor.

When in need of parts, always specify the tractor and engine serial numbers, including all prefix and suffix letters, if any. The tractor serial number is stamped on a name plate attached to the left side of the clutch housing. See *Illustr. 3A*.

Illustr. 3A

Location of tractor serial number.

The engine serial number is stamped on the right side of the engine crankcase above the battery ignition unit. See *Illustr. 3B*. This serial number is preceded by the prefix C-123, which indicates that it is a carbureted engine with a 123 cubic-inch piston displacement.

Illustr. 3B

Location of engine serial number.

For ready reference we suggest that you write these serial numbers in the spaces provided on the Delivery Report.
