

Med-Surg Certification Practice Questions With 100% Correct Answers 2024

A newly diabetic patient will receive instructions from his nurse. Which of the following actions should the nurse take first?

- A. Provide the patient with brochures for making smart choices for cooking/baking.
- B. Ask the patient what they know about diabetes.
- C. Instruct the patient on exercise or activities that will increase their metabolism.
- D. Teach them how to use the glucometer. - Correct Answer-B.

First ask the patient what they know about diabetes.

*ACTION questions ask for intervention, NOT assessment

The post hysterectomy patient with calls the clinic stating that she has been having difficulty with incontinence. Which of the following statements if made by the patient, indicates that further teaching is needed?

- A. I drink 8 oz. of fluid on the even hours while awake.
- B. I will attempt to void 30 minutes after drinking 200 cc. of fluid
- C. I will only drink fluid when I eat my meals
- D. I will set the timer to remind me when to void - Correct Answer-C.

A patient saying that he or she will only drink fluids when eating meals indicates that they don't know what to do in case of incontinence.

FURTHER TEACHING indicates that the patient needs more information

An RN assesses a patient in the Cancer Center with a diagnosis of terminal cancer. The patient states to the RN that he is short of breath, has no appetite and hurts everywhere. Which of the following statements by the nurse is best?

- A. Tell me how your family is coping
- B. Show me where it does not hurt
- C. I'll teach you relaxation techniques
- D. Your physician should increase your pain medication - Correct Answer-C

A clinical nurse returns to the desk to find 4 phone messages. Which of the following messages should the nurse respond to first?

Medical-surgical Nurse Exam Practice Questions Med-Surg Exam Secrets Test Prep,2014-03-31 Medical Surgical Nurse

Exam Practice Questions are the simplest way to prepare for the Medical Surgical Nurse Examination Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more or if you're already prepared enough to achieve success on your test day. If you do well on the practice test then you know you're prepared. If you struggle on the practice test then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our Medical Surgical Nurse Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious but you have to know which questions you missed and more importantly why you missed them to be able to avoid making the same mistakes again when you take the test.

HESI Comprehensive Review for the NCLEX-PN® Examination - E-Book HESI, 2011-04-13 This title includes additional digital media when purchased in print format. For this digital book edition media content is not included.
