OCR Core Maths a and B

(MEI) Bob Hartman, Heather Davis, Roger Porkess, 2021 Created to support students and teachers through the OCR Core Maths MEI courses and designed to create confident mathematicians able to apply their learning to a wide range of situations Written in conjunction with the MEI team to ensure the best possible support for the course Covers all components from both specifications Introduction to quantitative reasoning Critical maths and Statistical problem solving Innovative approach places learning in context throughout and focusses on learning through practice with a large number of questions exercises activities and exam style questions Real world examples are used to give students opportunities to apply their learning to different settings including everyday life and the workplace **OCR B [MEI] Year 1/AS Mathematics Exam Practice** Nick Geere, 2018 Benefit from the expert input of experienced examiners and subject specialists including Heather Davis in this assessment led Practice Book tailored to the new 2017 specifications and packed with exam style questions Thoroughly prepare your students for the exam with over 200 exam style questions that are matched to the new specifications Provide structured support and extra practice with questions focused on problem solving modelling and technology Create opportunities for self directed learning and assessment with answers at the back of the book plus full step by step worked solutions *An Ensemble Regression Approach For OCR Error Correction* Jie Mei, 2017 This thesis deals with the problem of error correction for Optical Character Recognition OCR generated text or OCR postprocessing how to detect error words in a text generated from OCR process and to suggest the most appropriate candidates to correct such errors The thesis demonstrates that OCR errors are inherently more protean and volatile than handwriting or typing errors while existing OCR postprocessing approaches have different limitations Through analyzing the recent development of error correction techniques we illustrate that the compositional approach incorporating correction inferences is broadly researched and practically useful Thus we propose an ensemble regression approach that composite correction inferences for ranking correction candidates of complex OCR errors On practical side we make available a benchmark dataset for this task and conduct a comprehensive study on performance analysis with different correction inferences and ensemble algorithms In particular the experimental results show that the proposed ensemble method is a robust approach that is able to handle complex OCR errors and outperform various baselines *The FP2 Handbook* Daniel Mannion, 2013-06-01 The aim of this book is a simple one it does not intend to swamp through the deepest and obscurest parts of OCR's FP2 syllabus nor does it give you a brief overview this book aims to cement your understanding in the very core of each topic allowing you to become more confident with the module as a whole Although FP2 can seem incredibly daunting at first knowing the basics inside and out can ensure you enter the exam with some guaranteed marks How to use the book is completely up to you you may use the book in line with a more in depth textbook using it to clarify any obscure points you may choose to use the book for revision or even as a quick reference for when you get stuck on a practice paper The book does not contain any specific exercises for you to practice as these can easily be found in other books or in past papers Instead it shows you a clear and

concise method to solve the example questions Ultimately I wrote this book for those who have thrown themselves into further maths
