*Literary Silences in Pascal, Rousseau, and Beckett* Elisabeth Marie Loevlie, 2003 To explore literary silence is to explore the relationships between literary texts and the silence of the ineffable It is to enquire what dynamics texts develop as they strive to say the unsayable and it is to think literature as a silence that speaks itself This study describes these literary and silent dynamics through readings of Pascal's *Pensées* Rousseau's *Révues* and Beckett's trilogy *Molloy Malone meurt* and *L'Innommable* It contributes to our understanding of three major writers and challenges our idea of what silence is The subject of silence and of the ineffable has a long philosophical and critical tradition A careful study of this tradition reveals the dominance of a limiting dualistic understanding of silence and its relationship to noise or language silence becomes the negative other the beyond about which there remains nothing to say The study of literary silence seeks rather to trace a language that becomes its own silence It compromises the attempt to think a silence that moves within and through texts that is inherent to the literary expression Central to this theoretical endeavour are thinkers like Derrida Deleuze Gadamer and Vattimo among several others The theoretical understanding of silence permits an effective methodology for reading literary silence Notions of repetition the aporia and the implosion which are developed in reference to Kierkegaard and Bataille describe textual strategies of literary silence and structure the readings Finally the reading of literary silence has its point of reference in writers like Mallarmé Blanchot and Beckett It is their texts that have taught us to become topological readers to move in and out of texts movements they have shown us how the literary expression is irreducible to linear meaning oriented language As readers of such texts we have been prepared to read the dynamics of the unsayable and finally to start discerning the silences of the literary

**Proust's Imaginary Museum** Gabrielle Townsend, 2008 This study of Marcel Proust's creative imagination examines an aspect of the novel that has hitherto been largely overlooked the author's dependence on secondary visual sources Gabrielle Townsend argues that reproductions play a key role in the work's complex multi-layered structure

**Scripta Judaica Cracoviensia, vol. 8**, *Mystery and Secrecy in the Nag Hammadi Collection and Other Ancient Literature: Ideas and Practices* Christian H. Bull, Liv Lied, John D. Turner, 2011-10-28 Drawing on a wide array of sources this anthology sets out to analyze the concepts of mystery and secrecy that occur in the ritual and rhetoric of antique Mediterranean religion with an emphasis on Gnosticism Christianity and Paganism

**Art of the Everyday** Ruth Bernard Yeazell, 2008 Realist novels are celebrated for their detailed attention to ordinary life But two hundred years before the rise of literary realism Dutch painters had already made an art of the everyday pictures that served as a compelling model for the novelists who followed By the mid 1800s seventeenth century Dutch painting figured virtually everywhere in the British and French fiction we esteem today as the vanguard of realism Why were such writers drawn to this art of two centuries before What does this tell us about the nature of realism In this beautifully illustrated and elegantly written book Ruth Yeazell explores the nineteenth century's fascination with Dutch painting as well as its doubts about an art that had

long challenged traditional values After showing how persistent tensions between high theory and low genre shaped criticism of novels and pictures alike *Art of the Everyday* turns to four major novelists Honor de Balzac George Eliot Thomas Hardy and Marcel Proust who strongly identified their work with Dutch painting For all these writers Dutch art provided a model for training themselves to look closely at the particulars of middle class life Yet even as nineteenth century novelists strove to create illusions of the real by modeling their narratives on Dutch pictures Yeazell argues they chafed at the model A concluding chapter on Proust explains why the nineteenth century associated such realism with the past and shows how the rediscovery of Vermeer helped resolve the longstanding conflict between humble details and the aspirations of high art

**Paris, a New Rome** Michèle Lowrie, Barbara Vinken, 2024-05-06 However shared the Roman inheritance may be it hardly unifies Which Rome is the model the Republic or the Empire The Rome of imperial conquest or of civil war By whom is it ruled By the glorious conqueror who extended universal peace the rule of law and infrastructure roads and aqueducts or by the detested tyrant who imposed domination Or worse the corruptor of republican liberty and source of putrefying decadence Rome always returns but which Rome France presents itself as a privileged locus for Rome's return since the beginnings of its history The perennial recourse to ancient Rome as model or anti model binds together a cohesive tradition The logic of this gesture asserts a unity beyond modern identity politics which depend on defining a them against us to resist nativist assumptions about national character French German Italian American etc All share the same polysemous inheritance for good or ill All are Roman and all resist Rome without needing to agree on what exactly is shared The unity underlying the discourse however no longer depends on defining Rome as an origin Instead Rome's figuration persists discursively as a translation to be translated time and time again Proust and the Arts Christie McDonald, François Proulx, 2015-11-05

*Proust and the Arts* brings together expert Proustians and renowned interdisciplinary scholars in a major reconsideration of the novelist's relation to the arts Going beyond the classic question of the models used by Proust for his fictional artists the essays collected here explore how he learned from and integrated in highly personal ways the work of such creators as Wagner or Carpaccio This volume reveals the breadth of Proust's engagement with varied art forms from different eras from primitive arts to sound recordings from medieval sculpture to Art Nouveau glassmaking and from portrait photography to the private art of doodling Chapters bring into focus issues of perception and detail in examining how Proust encountered and responded to works of art and attend to the ways art shaped his complex relationship to identity sexuality humor and the craft of writing □□□□□□□□, 1976 **National Union Catalog**, 1973 Includes entries for maps and atlases **La Bible**

among French novelists      Disguised Vices Michael Moriarty, 2011-09-08 The notions of virtue and vice are essential components of the Western ethical tradition But in early modern France they were called into question as writers most famously La Rochefoucauld argued that what appears as virtue is in fact disguised vice people carry out praiseworthy deeds because they stand to gain in some way they deserve no credit for their behaviour because they have no control over it they are governed by feelings and motives of which they may not be aware Disguised Vices analyses the underlying logic of these arguments and investigates what is at stake in them It traces the arguments back to their sources in earlier writers showing how ancient philosophers particularly Aristotle and Seneca formulated the distinction between behaviour that counts as virtuous and behaviour that only seems so It explains how St Augustine reinterpreted the distinction in the light of the difference between pagans and Christians and how medieval and early modern theologians strove to reconcile Augustine's position with that of Aristotle It examines the restatement of Augustine's position by his hard line early modern followers especially the Jansenists and the controversy to which this gave rise Finally it examines La Rochefoucauld's critique of virtue and assesses the extent of its links with the Augustinian current of thought      **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
