Algebra and Trigonometry John W. Coburn, 2010 Three components contribute to a theme sustained throughout the Coburn Series: that of laying a firm foundation, building a solid framework and providing strong connections. Not only does Coburn present a sound problem solving process to teach students to recognize a problem, organize a procedure and formulate a solution, the text encourages students to see beyond procedures in an effort to gain a greater understanding of the big ideas behind mathematical concepts.

Basic Mathematical Skills with Geometry James Streeter, Donald Hutchison, Louis Hoelzle, 1999-07 This interactive CD-ROM is a self-paced tutorial specifically linked to the text and reinforces topics through unlimited opportunities to review concepts and practice problem solving. The CD-ROM contains chapter and section specific tutorials, multiple choice questions with feedback and algorithmically generated questions. It required virtually no computer training on the part of students and supports IBM and Macintosh computers. In addition, a number of other technology and Web-based ancillaries are under development; they will support the ever-changing technology needs in developmental mathematics.
