Pietri, 2014-06-01 In the United States cannabis is currently illegal but this book investigates how big pharmaceutical

companies are looking at an end game of legality controlled by them It examines how the Amsterdam scene has been transformed how home growers have been manipulated into using inferior techniques and how companies with help from the Drug Enforcement Agency DEA and big pharma are patenting cannabis strains for control and profit The leadership of the cannabis industry want to legalize marijuana with taxation and regulation but the pharmaceutical industry cannot take over medical cannabis without first shutting down the scene today The book predicts that legalized production will be tightly controlled by major players using the IRS and DEA as a means of removing other growers Regulation will also control the amount of tetrahydrocannabinol THC in each marijuana cigarette forcing stronger cannabis to be available to medical patients by prescription only A black market will still exist so people will still go to jail and the drug war will go on With history and explosive behind the scenes looks at big pharma collusion this book is both an expos and an in depth look at the arc of freedom and probable control through use of pharmaceutical patents for marijuana Super-Charged Jim

Rendon,2012-09-18 Marijuana has been illegal in the United States since 1937 Yet thanks in large part to a loosely connected underground world of breeders dealers and smokers there are currently more than 2000 varieties available And since 1996 when California first passed legislation allowing for legalized medical marijuana the underground has slowly surfaced pushing what was once a decentralized lawless world closer to the corporate world of business agriculture and pharmaceuticals Super Charged gets up close and personal with the people who have transformed this controversial drug With personalities and backgrounds as diverse as the plant itself the growers include a former Silicon Valley software entrepreneur third generation Humboldt California growers a publicly traded pharmaceutical company and the famous marijuana personality Jorge Cervantes Jim Rendon takes readers behind the scenes and into the homes and grow operations of the committed quality obsessed practitioners in the international underground industry responsible for creating today s super charged cannabis Ironically these pioneers who built this illegal industry may one day find themselves out of business in the face of the drug s growing mainstream acceptance Just how this could come about is part of the incredible story
