Memo Of 2014 Geography Grade Paper 1:

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics Taken For A Ride Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed Taken for a Ride reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality the urban experience in developing countries and the failure to locate

the agency of the urban poor within their economic and political structures It is both a contribution and a call for the contextualised study of actually existing neoliberalism Yearbook of International Organizations 2014-2015 (Volume 3) Union Of International Associations, Union of International Associations, 2014-08-20 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to Volumes 1 through 3 America's Moment Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone Brexit and After Kumiko Haba, Martin Holland, 2020-12-12 This book makes a new departure from others on the subject Not only does it analyze Brexit from the domestic point of view in the UK democracy social analysis and construction of new institutionalization with the EU it extends the analysis externally and reconsiders the EU and UK relationship with Asia and the implications for international relations and a new world order From this foundation this book presents a broad and diverse spectrum of views concerning Brexit and the EU For these reasons it serves as an original and excellent textbook for undergraduate and graduate students as well as for researchers of

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of *Europe Asia Studies*
