Pop City Youjeong Oh, 2018-12-15 Pop City examines the use of Korean television dramas and K pop music to promote urban and rural places in South Korea Building on the phenomenon of Korean pop culture Youjeong Oh argues that pop culture featured place selling mediates two separate domains political decentralization and the globalization of Korean popular culture By analyzing the process of culture featured place marketing Pop City shows that urban spaces are produced and sold just like TV dramas and pop idols by promoting spectacular images rather than substantial physical and cultural qualities Oh demonstrates how the speculative image based and consumer exploitive nature of popular culture shapes the commodification of urban space and ultimately argues that pop culture mediated place promotion entails the domination of urban space by capital in more sophisticated and fetishized ways *The Places in Seoul Cinema Fell in Love with Seoul Film*
