**Diamonds. a Study of the Factors That Govern Their Value** Frank B. Wade, 2016-06-27 From the Foreword IN writing this little monograph on factors that govern the value of diamonds the author has attempted to put within limits not too wide to be covered by the busy diamond merchant much of the experience he has gained during the past fifteen years as a student of diamonds Some of the information contained in this volume is the common property of all who have given attention to the subject Part of it is to be found already in print in larger and more pretentious works A modest portion of the material is the result of original study at first hand especially such part as attempts to analyse various effects and to determine and explain their causes While most of the technical information contained in the following chapters might be learned of men who are now in the business many such have no time or taste for writing down what they have learned and others unfortunately regard some of these matters as trade secrets to be kept from the buying public The writer therefore feels that there is a place for such an essay and hopes that many who are serving their apprenticeship in the jewelry business and perhaps a few who are already recognized as diamond merchants may profit by the close study of this handbook In preparing these pages the author has also had the great American diamond buying public in mind and has even given over a short chapter to advice to the intending buyer of a diamond No other people buy diamonds so largely as Americans They buy the best and are usually at pains to inform themselves more thoroughly than other nationalities as to the points that

determine the value of diamonds There is nothing within the pages of this book which a merchant who is conducting an honest business in diamonds need fear to have become the property of the public The more discerning and intelligent the buying public becomes the better customer it will be in the long run In conclusion the author would extend his thanks to the many jewelers and diamond men who have courteously extended to him opportunities to study diamonds at first hand Most of the jewelers of Indianapolis should be included and in addition the author wishes gratefully to acknowledge much assistance from Mr Edward E Stone and Mr John O Hanion of Boston and Mr John H Baker of New York The admirable treatise on diamonds by W R Cattelle has also furnished much interesting information and confirmed much that was gathered at first hand

had one diamond the size of his thumb he could purchase the county and if he had a mine of diamonds he could place his children upon thrones through the influence of their great wealth Ali Hafed heard all about diamonds how much they were worth and went to his bed that night a poor man He had not lost anything but he was poor because he was discontented and discontented because he feared he was poor He said I want a mine of diamonds and he lay awake all night Early in the morning he sought out the priest I know by experience that a priest is very cross when awake Read More *Diamonds* Renee Newman,1990-02-01 [Diamonds and Precious Stones](#) Harry Emanuel,2017-12-04 Excerpt from *Diamonds and Precious Stones Their History Value and Distinguishing Characteristics With Simple Tests for Their Identification* At the time that the African diamond fields were discovered there was only one diamond cutter in London Dutchmen were accordingly engaged to work in London from Monday morning till Friday sunset and they were 1 to receive 10 per week each man There was a very large supply of rough diamonds to be cut so they struck several times successfully for higher wages They would allow no person to be in the room that they worked in being afraid the secrets of their art might be discovered At least they demanded 18 per week each man when they were discharged and English precious gem cutter aware put at the I work At first they were only able after a deal of trouble to cut a class of diamond in one month which they could 1 now cut in about four days As soon as it was clearly proved that Englishmen had once more gained the art the 1 Worshipful Company of Turners had their attention called 3 to it by their Past Masters the late Professor Tennant 3 the Queen s Mineralogist and Mr John Jones They at once decided to give English cutters every encouragement and have with the valuable assistance of the Baroness and Mr Burdett Coutts who are both members of this company offered money awards in competition against the Dutch for the best cut diamonds After several contests the Englishmen gained the first prize and most of the others Great credit and thanks are due to this company and the Baroness and Mr Burdett Coutts for giving such valuable assistance to this industry About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Diamonds** Leo P. Bone,2013-12 This book is intended to provide the reader with information regarding diamond prospecting It also points out areas to prospect I have prospected in this area of Virginia and West Virginia in the past but my ill health prevents me doing it anymore It s all yours now Finding diamonds will not be that difficult but remember they should be two carats or larger and free of flaws to be worth much You may want to save everything smaller too Some third world company may purchase them from you      *Diamonds; a Study of the Factors That Govern Their Value* Frank Bertram Wade,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1916 edition Excerpt CHAPTER IV REPAIRING AND RECUTTING AND THEIR EFFECTS ON THE VALUE OF SOME DIAMONDS They are square and pointed of their own kind both above and beneath without work of man s hand and they grow together male and female and are nourished by the dew of heaven and they engender commonly and bring forth small children that multiply and grow all the year I have oftentimes tried the experiment that if a man keep them with a little of the rock and wet them with May dew often they shall grow every year and the small will grow great for right as the fine pearl congeals and grows great by the dew of heaven right so doth the true diamond and right as the pca l of its own nature takes roundness so the diamond by virtue of God takes squareness The Voyages and Travels of Sir John Maundeville THE previous chapters on colour flaws and make in connection with the value of diamonds have been of general application The present chapter dealing as it does with repairing and recutting does not apply to every diamond but only to the few stones that come to grief or to those which for one reason or another were not well made when originally cut Notwithstanding the fact that it is only occasionally that a dealer in dia 1 monds is called upon to use his knowledge of what may be done in the way of repairing or recutting there is considerable need of an adequate knowledge of the matter for use on such occasions Many jewellers have suffered unnecessary losses

through lack of a complete understanding of the possibilities Some attempt will therefore be made to acquaint those who may lack experience with the usual kinds of injuries that occur to diamonds and with the possibilities as to the repair of such injuries and the effect upon     All Diamonds are Blood Diamonds Penny Hess,2006     **Beyond the Four C's** Joshua Fishman,2014-10-31 Carat Color Clarity and Cut Many people think that all they need to know to properly evaluate and buy a diamond are the basics of the Four C s But Joshua Fishman a third generation diamantaire with over thirty years experience buying and selling diamonds knows this is a myth Another prolific myth Fishman debunks is the idea that diamonds are just a commodity If you are looking at two diamonds with the same grade he explains the less expensive one is not necessarily going to be the better buy because other qualities that affect the look of the stone must also be factored in He also challenges the myth of the ideal cut In Beyond the Four C s Fishman tackles these myths and many other misunderstandings that arise because of the myriad complexities involved in evaluating diamonds providing you with an education that truly will qualify you to take home the diamond that is ideal for you This is the most comprehensive educational book about diamonds to date In incisive detail Fishman explains everything you need to know about diamonds from the terminology describing diamonds to how to tell if a diamond is real and to how and where to sell a diamond and much more
