Internationalization of Business Stefan Schmid, 2018-12-30. This book illustrates the various facets of internationalization in managerial practice starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries such as sporting goods, aviation, grocery, discount, motorcycle, computer and IT, and fast food. The cases present a variety of ways of entering and operating in foreign markets such as export, franchising, joint ventures, strategic alliances, greenfield investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well known companies. *The Times Index*, 2013-03.
