Using Graywater and Stormwater to Enhance Local Water Supplies National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Water Science and Technology Board, Committee on the Beneficial Use of Graywater and Stormwater: An Assessment of Risks, Costs, and Benefits, 2016-06-30 Chronic and episodic water shortages are becoming common in many regions of the United States and population growth in water scarce regions further compounds the challenges. Increasingly alternative water sources such as graywater (untreated wastewater that does not include water from the toilet but generally includes water from bathroom sinks, showers, bathtubs, clothes washers, and laundry sinks) and stormwater (water from rainfall or snow that can be measured downstream in a pipe, culvert, or stream shortly after the precipitation event) are being viewed as resources to supplement scarce water supplies rather than as waste to be discharged as rapidly as possible. Graywater and stormwater can serve a range of non-potable uses including irrigation, toilet flushing, washing, and cooling, although treatment may be needed. Stormwater may also be used to recharge groundwater which may ultimately be tapped for potable use. In addition to providing additional sources of local water supply, harvesting stormwater has many potential benefits including energy savings, pollution prevention, and reducing the impacts of urban development on urban streams. Similarly, the reuse of graywater can enhance water supply reliability and extend the capacity of existing wastewater systems in growing cities. Despite the benefits of using local alternative water sources to address water demands, many questions remain that have limited the broader application of graywater and stormwater capture and use. In particular, limited information is available on the costs, benefits, and risks of these projects, and beyond the simplest applications, many state and local public health agencies have not developed regulatory frameworks for full use of these local water resources. To address these issues, **Using Graywater and Stormwater to Enhance Local Water Supplies** analyzes the risks, costs, and benefits on various uses of graywater and stormwater. This report examines technical, economic, regulatory, and social issues associated with graywater and stormwater capture for a range of uses including non-potable urban uses, irrigation, and groundwater recharge. **Using Graywater and Stormwater to Enhance Local Water Supplies** considers the quality and suitability of water for reuse, treatment, and storage technologies, and human health and environmental risks of water reuse. The findings and recommendations of this report will be valuable for water managers, citizens of states under a current drought, and local and state health and environmental agencies.

Transforming Water Management in South Africa Barbara Schreiner, Rashid M. Hassan, 2011-12-10 One of the early set of reforms that South Africa embarked on after emerging from apartheid was in the water sector following a remarkable consultative process. The policy and legal reforms were comprehensive and covered almost all aspects of water management including revolutionary changes in defining and allocating rights to water, radical reforms in water management and supply institutions, the introduction of the protection of environmental flows, and major shifts in charging for water use and in the provision of free

basic water Over ten years of implementation of these policy and legislative changes mean that valuable lessons have already been learned and useful experiences gained in the challenge of effective water resources management and water services provision in a middle income country

Chris Hani Hugh Macmillan, 2021-02-15 This biography shows how Black political leader Chris Hani's life and death were pivotal to ending apartheid and to establishing a democratic government in South Africa Chris Hani is one of the most iconic figures in South Africa's history as a leader within the African National Congress ANC and as chief of staff of uMkhonto we Sizwe the armed wing of the ANC His assassination in 1993 by a far right militant threatened negotiations to end apartheid and install a democratic government Serious tensions followed the assassination leading Nelson Mandela to address the nation in an effort to avert further violence Tonight I am reaching out to every single South African black and white from the very depths of my being A white man full of prejudice and hate came to our country and committed a deed so foul that our whole nation now teeters on the brink of disaster A white woman of Afrikaner origin risked her life so that we may know and bring to justice this assassin The cold blooded murder of Chris Hani has sent shock waves throughout the country and the world Now is the time for all South Africans to stand together against those who from any quarter wish to destroy what Chris Hani gave his life for the freedom of all of us Hugh Macmillan's concise biography details Hani's important role in shaping twentieth century South African history
