June 2business Studies Zimsec Paper :

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26

This edited volume discusses the role of innovation and regional integration in economic development in Africa. Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels. However the results of both national and regional efforts at advancing development on the continent have been mixed. Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology. This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities. The book is divided into four parts. Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa. Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa. Part III of the book deals with sectoral issues on innovation and integrated development in Africa. Part IV sets the future research on innovation regional integration and development in Africa. Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union.

Hope Deferred Peter Orner, Annie Holmes, 2023-06-15 Hope Deferred asks the question How did Zimbabwe a country with so much promise a stellar education system a growing middle class a sophisticated economic infrastructure a liberal constitution and an independent judiciary come so close to collapse. In their own words Zimbabweans tell their stories of losing their homes land livelihoods and families as a direct result of political violence. They describe being tortured in detention firebombed at work or beaten up or raped to punish votes for the opposition. Those forced to flee to neighboring countries recount their escapes cutting through fences swimming across crocodile infested rivers and entrusting themselves to human smugglers. This book includes Zimbabweans of every age class and political conviction from farm laborers and academics to doctors and artists ordinary people surviving the fragmentation of a once thriving nation. **Zimbabwe's Fast Track Land Reform** Prosper B. Matondi, 2012-11-08 The Fast Track Land Reform Programme in Zimbabwe has emerged as a highly contested reform process both nationally and internationally. The image of it has all too often been that of the widespread displacement and subsequent replacement of various people agricultural related production systems facets and processes. The reality however is altogether more complex. Providing new and much needed empirical research this in depth

book examines how processes such as land acquisition allocation transitional production outcomes social life gender and tenure have influenced and been influenced by the forces driving the programme It also explores the ways in which the land reform programme has created a new agrarian structure based on small to medium scale farmers In attempting to resolve the problematic issues the reforms have raised the author argues that it is this new agrarian formation which provides the greatest scope for improving Zimbabwe s agriculture and development Based on a broader geographical scope than any previous study carried out on the subject this is a landmark work on a subject of considerable controversy
