essentielle au dialogue entre la science et la religion Raisons d'être Solange Lefebvre, 2008-01-01 La modernité a bouleversé la question de la place et du sens de l'être humain dans l'univers Cette interrogation certes d'abord philosophique s'est renouvelée au grès des vagues de découvertes scientifiques Comme celles-ci n'ont fait que se multiplier une vitesse grandissante elles laissent nombre de personnes impuissantes comprendre l'univers Qu'est-ce que la vérité La foi religieuse n'est-elle plus qu'une option naïve après les révolutions en sciences physiques et plus récemment l'extraordinaire percée des neurosciences Y a-t-il toujours une place pour la transcendance Des spécialistes de réputation internationale confrontent ici leurs points de vue en un dialogue passionnant dans les domaines des sciences pures et humaines physique philosophie théologie neurobiologie bioéthique microbiologie ces penseurs partant de leur perspective propre entrecroisent des réflexions qui clarifient le lecteur sur la question la plus fondamentale de la pensée celle du sens de l'être humain **Dialogue sur l'histoire, la religion et les sciences** Michel Blay, François Euvé, 2019-11-14 Faut-il considérer que le rationnel est du côté de la science et l'irrationnel du côté de la religion Et que la première admet la seconde Rien n'est moins sûr elles n'ont pas les mêmes objets On emploie le mot science comme si l'on avait eu le même sens de toute éternité comme si cela signifiait la même chose pour Aristote Copernic Galilée ou Stephen Hawking Or ce mot ne désigne pas la même réalité pour les Anciens les Modernes et nos contemporains La science se construit historiquement dans le temps et avec son époque Tout comme la religion la science est une forme de pensée qui définit une vérité certes mais une vérité qui n'est pas intangible Par ailleurs la science dans sa genèse a été profondément influencée par une certaine théologie laquelle s'est elle aussi présentée comme une démarche rationnelle en interaction permanente avec son environnement intellectuel D'une époque à l'autre c'est une étude des croisements et des enjeux entre science et théologie que cet ouvrage nous invite **Dialogue sur l'histoire, la religion et les sciences** Michel Blay, François Euvé, 2019-11-14 **La philosophie de la religion** Jacques Matter, 1857 La philosophie, la science, la religion devant le monde contemporain René Ledent, 1942 **Science Et Religion Dans La Philosophie Contemporaine** BiblioBazaar, Emile Boutroux, 2013-10 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book
