**Exploring the Transnational Neighbourhood** Stephan Ehrig,Britta C. Jung,Gad Schaffer,2022-10-13 Urban neighbourhoods have come to occupy the public imagination as a litmus test of migration with some areas hailed as multicultural success stories while others are framed as ghettos In an attempt to break down this dichotomy Exploring the Transnational Neighbourhood filters these debates through the lenses of geography anthropology and literary and cultural studies By establishing the interdisciplinary concept of the transnational neighbourhood it presents these localities whether Clichy sous Bois Belfast El Segundo Barrio or Williamsburg as densely packed contact zones where disparate cultures meet in often highly asymmetrical relations producing a constantly shifting local and cultural knowledge about identity belonging and familiarity Exploring the Transnational Neighbourhood offers a pivotal response to one of the key questions of our time How do people create a sense of community within an exceedingly globalised context By focusing on the neighbourhood as a central space of transcultural everyday experience within three different levels of discourse i e the
