Ansary,Raymond Frost,2006 This best selling book is unique in that it parallels the organization of an introductory marketing textbook but it explores key marketing concepts in the context

of today's digital Internet environment. It fills the gap for those who have found Internet Marketing books suffer from too much E and not enough marketing or are too narrowly or technically focused on e-commerce. A five-part organization covers e-marketing in context, e-marketing environment, e-marketing strategy, e-marketing management, and a global perspective on e-marketing. Special topics include competitive strategies, e-marketing strategy development, marketing planning, and performance metrics, and coverage of cutting-edge strategies beyond the Web: m-marketing, mobile databases, and analysis techniques, point of purchase scanning, and more. For an e-understanding of marketing and business.
