Wards newly designed refrigerators are manufactured in the most complete and up-to-date plant in the country, and must meet the most rigid specifications in the industry.

Every refrigerator is actually operated and checked for efficiency. After an eight-hour operating test, it is moved into a "quiet" room where units are checked for quiet operation. Following the quiet test the refrigerator is thoroughly cleaned and inspected.

UNPACKING AND ASSEMBLY

All parts which might rattle or move around in transit are securely packed in the food compartment. The refrigerator is then placed in a specially de-

signed crate and shipped to you in the store in which you made your purchase. Shelves are in their regular position, securely held in place by small metal fasteners or clips. The clips may be removed by straightening the tabs with the flat end of a screwdriver under the end of the tabs and prying tabs away from the shelf wire or frame.

The Food Freshener and Food Trays are secured in place with cardboard and tape. Remove the tape and packing materials so these items glide freely in the channels which support them. Glass shelves, etc., that cover Food Freshener are packaged separately and secured. Open these packages, clean and place in proper location. The ice trays and grids will be found in a separate package. Remove contents, clean and place in freezer.

See Figures 1, 2, or 3 for your type of refrigerator illustrating the manner in which the accessories are placed in the cabinet.

Inspect your refrigerator thoroughly at the time of delivery to make certain no damage has been incurred during shipment. This eliminates any doubt about the possibility of damage having been done in the home. In event of damage, mail Order customers should file claim at once with claim agent of the railroad or trucking company that delivered the refrigerator. Retail Store customers should inform the store or its representative immediately.

How to Use WARDS JIFFY CUBE RELEASE

• This new JIFFY CUBE Release operates the fast freezing of an oil cooled tray and grid with most refrigerator cube release. It does these things and has the advantage of removing without water, heat or unnecessary freezing.

1 Heat tray and grid slowly until ice has melted. Place tray in hot oil position. When the tray is hot and ready to freeze.

2 When tray is ready, lift and flip grid. The ice cubes will drop into the tray.

If only a few cubes are needed, raise tray and remove the necessary number of cubes, leaving the grid in place. Return the tray to frozen or, if desired, put in storage slot.

If a large quantity of cubes is required, simply flip tray into cold storage slot. Flip tray and place in the freezing tray.

IMPORTANT: Wash with softener soap and water only. Never pour hot or grid with hard grease or otherwise provide oil any kind.

CAUTION: Wards Jiffy Cube Release Kit only the tray in which it comes. It will not operate satisfactorily in any other tray.

MONTGOMERY WARD

Montgomery Ward H2510hv Vacuums Owners Manual

Montgomery Ward

Montgomery Ward H2510hv Vacuums Owners Manual:

Owner's Guide Supreme Electric Wardrier Model AC-676 Montgomery Ward, 1955
