La Main Invisible:

Caricature and French Political Culture 1830-1848 David S. Kerr, 2000-09-07 Charles Philipon 1800 1862 was the founder of the satirical illustrated press in France With the newspapers he owned and directed La Caricature and Le Charivari he led an unprecedentedly coherent and vitriolic campaign of disrespect against King Louis Philippe and his regime Using a group of young caricaturists the most talented of whom were Daumier Grandville and Travies and the collaboration of a gifted team of writers including Balzac he crafted a new language of opposition This book is the first full scholarly study of the structure of the illustrated press in the 1830s its contribution to political debate in France the dissemination of caricature and its potential as political propaganda and the links between caricature and other forms of political cultural discourse under the July Monarchy , *Le Dieu du marché* François Dermange, 2003 **Self-Interest before Adam Smith** Pierre Force, 2003-09-04 Self Interest before Adam Smith inquires into the foundations of economic theory It is generally assumed that the birth of modern economic science marked by the publication of The Wealth of Nations in 1776 was the triumph of the selfish hypothesis the idea that self interest is the motive of human action Yet as a neo Epicurean idea this hypothesis had been a matter of controversy for over a century and Smith opposed it from a neo Stoic point of view But how can the Epicurean principles of orthodox economic theory be reconciled with the Stoic principles of Adam Smith s philosophy Pierre Force shows how Smith s theory refutes the selfish hypothesis and integrates it at the same time He also explains how Smith appropriated Rousseau s republican critique of modern commercial society and makes the case that the autonomy of economic science is an unintended consequence of Smith s republican principles Encyclopedia of French Film Directors Philippe Rège, 2009-12-11 Cinema has been long associated with France dating back to 1895 when Louis and Auguste Lumi_re screened their works the first public viewing of films anywhere Early silent pioneers Georges MZli_s Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond In Encyclopedia of French Film Directors Philippe R ge identifies every French director who has made at least one feature film since 1895 From undisputed masters to obscure one timers nearly 3 000 directors are cited here including at least 200 filmmakers not mentioned in similar books published in France Each director s entry contains a brief biographical summary including dates and places of birth and death information on the individual s education and professional training and other pertinent details such as real names when the filmmaker uses a pseudonym The entries also provide complete filmographies including credits for feature films shorts documentaries and television work Some of the most important names in the history of film can be found in this encyclopedia from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean Luc Godard *Law, Norms and Freedoms in Cyberspace / Droit, normes et libertés dans le cybermonde* Cécile de Terwangne, Elise Degrave, Séverine Dusollier, Robert Queck, 2018-05-29 Professeur chercheur directeur de centre doyen et recteur Yves Pouillet s est illustr dans
