## La Turquie En Europe:

*La Turquie en Europe* Bruno Cautrès, Nicolas Monceau, 2011-05-24 T00:00:00+02:00 L'adhésion de la Turquie à l'Union européenne divise. Jamais largissement n'a suscité autant de réactions contrastées voire d'oppositions radicales. Cette candidature soulève en effet des enjeux indits sur l'identité, les valeurs, les frontières et le déficit démocratique de l'Europe. Ces débats nous parlent avec force des non-dits d'une construction européenne fondée sur des postulats culturels et géographiques. Ils reviennent en sous-main la place prise par la question des migrations et celle de l'islam au sein des pays de l'Union. Tel un miroir inversé le regard des Turcs sur l'Europe et leur désenchèvement face aux réalités des Européens forment l'angle original de cet ouvrage qui propose une analyse croisée de l'évolution des opinions européennes et turques. À l'heure où la Turquie entend jouer un nouveau rôle de puissance régionale, il appartient désormais aux gouvernements européens d'apprécier l'opportunité ou au contraire le risque de gagner ou de perdre la Turquie comme partenaire part entière.

Tel un miroir inversé le regard des Turcs sur l'Europe et leur désenchèvement face aux réalités des Européens forment l'angle original de cet ouvrage qui propose une analyse croisée de l'évolution des opinions européennes et turques. À l'heure où la Turquie entend jouer un nouveau rôle de puissance régionale, il appartient désormais aux gouvernements européens d'apprécier l'opportunité ou au contraire le risque de gagner ou de perdre la Turquie comme partenaire part entière.

**La Turquie en Europe, la Turquie dans le Monde** Étienne Toureille, 2017 L'image de l'Europe comme un continent doté de limites inflexibles et indiscutables est largement partagée dans l'opinion publique des pays traditionnellement considérés comme européens. Dans le milieu des années 2000 les débats liés aux référendums sur le Traité Constitutionnel 2004-2005 conduisent pourtant un certain nombre d'acteurs politiques de premier plan à proposer des définitions de ce qu'elle serait ou ne serait pas. Mais plutôt que d'interroger le contenu de cette Europe au sens large convoquée dans ces différents discours la controverse dont se saisissent les politologues et tout un ensemble de chercheurs a souvent l'objectif plus spécifique d'évaluer le caractère européen d'un pays en particulier la Turquie alors depuis peu reconnue candidate officielle à l'Union Européenne UE 1999. Bien que candidate celle-ci se trouve tour à tour intégrée puis mise au ban de l'Europe du fait d'un supposé déficit européen pour être renvoyée du côté d'autres catégories régionales comme l'Asie, le Moyen-Orient ou le Monde Musulman. Cette thèse se saisit alors du paradoxe turc avec l'ambition de décrypter le sens du mot Europe dans une perspective géographique. Pour se faire elle propose une investigation basée sur l'analyse de représentations turques du Monde étudiants du premier cycle universitaire Licence. Une première analyse de géographie régionale relativement classique.

qui permet de fournir quelques éléments de contextes aux représentations analysées cherche à identifier une région européenne homogène basée sur des indicateurs socio-économiques ou l'analyse de la trajectoire du pays par rapport à cette région sur le temps long. Cette première démarche n'annule pas le fait que l'identification claire de ce qu'est l'Europe et suggère que le problème est sans doute profondément ancré dans les représentations de l'objet qu'elle constitue voire plus généralement du Monde. Une deuxième investigation consiste alors à faire merger le contenu la fois sémantique et spatial de l'Europe propre la population d'Europe et ce tant au niveau individuel qu'aggrégé. De là suit une troisième analyse visant cette fois à valuer la place relative de l'Europe dans le Monde et l'éventualité de son déclin en considérant les préférences résidentielles de ladite population. Pour se faire, cette thèse propose une perspective décentrée construite sur un matériau empirique issu de deux enquêtes de terrain et différentes méthodes de traitements croisant différentes analyses interprétatives et empiriques. Ainsi, travers une analyse systématique de différentes formes de représentations, elle devient susceptible de mettre en évidence la singularité d'un regard turc sur le Monde.

**Degrees of European Belonging** Élisabeth Le, 2021-03-15 While we tend to divide the world into Us and Them a number of grey nuances exist beyond this white and black distinction. The purpose of this book is to address the fuzzy areas between Us and Them through the study of European belonging as it is represented in the French elite daily *Le Monde*. Corpora collected from 2014 to 2017 are used for case studies in the framework of Discourse Analysis to look at the use of Europe in headlines and the representation of the United Kingdom, Poland, Hungary, Romania, Ukraine, Belarus and Turkey. The combination of these case studies allows to present a conceptual framework for the representation of Europe by *Le Monde*. However, beyond the study of what belonging to Europe means for *Le Monde*, this book is about the legitimacy of being in between, i.e. belonging neither totally to Us nor to Them.

**La Turquie et l'Europe** Beril Dedeoğlu, Samim Akgönül, 2013-06-01 Turquie, Europe, il s'agit d'une évolution en interaction et non pas d'une relation un seul sens. La question turque est complexe pour l'Europe, mais la question européenne est également complexe si ce n'est plus pour la Turquie. Ainsi, la présence de la Turquie et les relations qu'elle entretient avec l'Europe changent l'Europe et les perspectives européennes, les pressions la main tendue, parfois l'exclusion, changent la Turquie.

Répond à la question de l'opportunité pour l'Europe de l'adhésion de la Turquie et expose les secteurs dans lesquels les efforts de la Turquie accomplis et venir sont porteurs pour l'Europe.
