**Disgorgement of Profits** Ewoud Hondius, André Janssen, 2015-08-12

Disgorgement of profits is not exactly a household word in private law Particularly in civil law jurisdictions as opposed to those of the common law the notion is not well known What does it stand for It is best illustrated by examples One of the best known being the British case of *Blake v Attorney General* 2001 1 AC 268 In which a double spy had been imprisoned by the UK government before escaping and settling in the former Soviet Union While there wrote a book on his experiences upon which the UK government claimed the proceeds of the book The House of Lords as it then was allowed the claim on the basis of Blake's breach of his employment contract Other examples are the infringement of intellectual property rights where the damages of the owner are limited but the profits of the wrongdoer immense In such cases the question arises whether the infringing party should be disgorged of his profits This volume aims at establishing the notion of disgorgement of profits as a keyword in the discourse of private law It does not purport to answer the question whether or not such damages should or should not be awarded It does however aim to contribute to the discussion the arguments in favour and against and the organisation of the various actions

**The World Economy** Beth V. Yarbrough, Robert M. Yarbrough, 1991 The connection between international economics and your daily life is greater than you

might think THE WORLD ECONOMY TRADE AND FINANCE is the most accurate balanced and user friendly textbook available And at the end of every chapter you ll see at least three examples of how economic issues are impacting your life as a student and a citizen Whether you need a great grade in the class or an economics textbook you ll use again and again make THE WORLD ECONOMY TRADE AND FINANCE your choice to help you succeed      **Economics** Roy Vogt,Beverly J. Cameron,Edwin G. Dolan,1993      **Introducing Anthropological Economics** Sujay Rao Mandavilli, This paper attempts to merge the concepts and theoretical frameworks of the disciplines of Anthropology and Economics and attempts to create a new sub field in Economics called Anthropological Economics which is mired in Anthropological concepts and principles and seeks to maximize not only human welfare and happiness but also wealth maximization across cultures while considering both the psychic unity of man universal human needs and culture specific factors Thus Anthropological Economics is expected to be inter related to other disciplines of Economics but remain complementary to them i e it is not expected that it will intrude into other sub fields of economics replace them or override their principles in any way It will therefore draw upon other aspects of economic theory and enrich them suitably It is therefore expected that all aspects of Economic theory will be taken into consideration for policy formulation and decision making including those of Anthropological economics and independent context specific judgment will always be applied The new proposed field of Anthropological Economics proposes to take the idea of Human Welfare to its logical conclusion by extending the work already carried out in various sub disciplines of economics and integrating it more tightly with various concepts in Anthropology Many new tools and techniques are therefore proposed as a part of this paper and we believe these will suitably enrich the field of Economics as well While many attempts have been made in the past to integrate the fields of Anthropology and Economics we hope this endeavour will take this exercise to a much higher level by creating a new generation of Anthroeconomists We also hope it will eventually help move mainstream economics away from Neo classical approaches to Anthropological and human centric approaches      **Managerial Economics** Ivan Png,2012 Presents the key concepts of micro economics intuitively without requiring any sophisticated mathematics Throughout it emphasizes actual management application and links to other functions including marketing and finance      The Publishers' Trade List Annual ,1983
