Cecchetti, 2010-10 Transparency is one of the biggest innovations in central bank policy of the past quarter century Modern central bankers believe that they should be as clear about their objectives and actions as possible However is greater transparency always beneficial This report studies the degree to which increased info about monetary policy might lead to individuals coordinating their forecasts The authors estimate a series of simple models to measure the impact of inflation targeting on the dispersion of private sector forecasts of inflation Using a panel data set that includes 15 countries over 20 years they find no convincing evidence that adopting an inflation targeting regime leads to a reduction in the dispersion of private sector forecasts of inflation **Twenty Years of Inflation Targeting** David Cobham, Øyvind Eitrheim, Stefan Gerlach, Jan F. Qvigstad, 2010-09-16 There is now a remarkably strong consensus among academics and professional economists that central banks should adopt explicit inflation targets and that all key monetary policy decisions especially those concerning interest rates should be made with a view to ensuring that these targets are achieved This book provides a comprehensive review of the experience of inflation targeting since its introduction in New Zealand in 1989 and looks in detail at what we can learn from the past twenty years and what challenges we may face in the future Written by a distinguished team of academics and professional economists from central banks around the world the book covers a wide range of issues including many that have arisen as a result of the recent financial crisis It should be read by anyone concerned with better understanding inflation targeting and its past present and future role within monetary policy *Bernanke's Test* Johan van Overtveldt, 2009 In examining the challenges facing Federal Reserve chair Ben Bernanke Van Overtveldt reviews Bernanke's career as an economist prior to replacing Alan Greenspan The book offers much needed historical context and explores the role of the nation's central banker *Macroeconomics, Monetary Economics and Money & Banking Course Materials*, 1981 **Subject Guide to Books in Print**, 1993 *Business Review*, 2005 *Inflation Targeting in MENA Countries* Mongi Boughzala, 2011-07-26 This volume assesses the current state of play for Middle East and North African countries in the light of wider work on inflation targeting and provides lessons from the evolution of monetary policy in Europe **Economics** T.
