Multnomah County Voter Guide 2008:

Elderly Voters Barbara D. Bovbjerg, 2010-06 Voting is fundamental to the U S democratic system and federal law provides broad protections for people with disabilities including older voters Many long term care facility residents who often have physical or cognitive impairments vote by absentee or early ballot Concerns have been raised about the extent to which states and localities are helping the increasing number of facility residents exercise their right to vote especially those requiring voting assistance who may be subject to undue influence or unauthorized completion of their ballot by facility staff or relatives Given these concerns this report identified the actions taken to facilitate and protect voting for long term care facility residents at 1 the state level and 2 the local level Charts and tables

Financing the 2016 Election David B. Magleby, 2019-04-30 Money and politics in an election that broke the mold Beginning with the 1960 election readers could turn to one book for an authoritative and comprehensive examination of campaign finance at the federal level Now the latest in this respected series Financing the 2016 Election explores the role of money in one of the most unconventional elections in modern American history A team of leading scholars has dug into the roles played by political parties and special interest groups including their Super PACS in the presidential and congressional elections of 2016 David Magleby and his team of experts examined Federal Elections Commission reports and interviewed dozens of key participants including representatives of virtually all the major interest groups active in the 2016 election cycle They place that election in the context of how U S elections have been financed during recent decades a context that illustrates how dramatically different campaign finance is today from the past Among the most important changes has been the growth of so called Super PACS which have become increasingly important both in the financing they provide candidates and in their ability to act independently both for and against candidates Overall Super PACS doubled their spending in 2016 from four years earlier Taking a comprehensive approach this book helps readers understand how the financing of elections including the increasing reliance by candidates on outside special interest groups ultimately affects politics and public policy

The Politics of Disenfranchisement Richard K. Scher, 2015-03-04 We think of our American democracy as being a model for the world and it has been But today it compares unfavorably in some respects especially when it comes to the universal franchise The right to vote is more conditional and less exercised in the United States than in many other mature democracies As became clear to all in the presidential election of 2000 when the stakes are high efforts to define voter eligibility and manage the voting and vote counting process to the advantage of one s own side are part of hard ball politics It is that experience that gave rise to this book Written by an author with wide expertise on Southern and Florida politics and districting the book begins with a deceptively simple question why is it so hard to vote in America It proceeds in seven chapters to examine the ways that some people are formally or effectively disenfranchised and to review how control of the ballot and the voting process is constrained manipulated and contested
