Prison Diaries Priya Gaikwad, India does not have 29 states as it claims but 30 states 30th being Bhastapur. Bhastapur is so downtrodden and corrupt that India feels ashamed to include it in its map. The story happens in a women's prison located in Bhastapur. It is about the animosity between female inmates and the tyrannical jailer Baal Rana who rules the prison. Baal does not leave a stone unturned to torture every woman in the prison. After constant tortures and mysterious murders the women of the prison decide to bring a change. Kinetic Garment Construction Rickard Lindqvist, 2015-03-27 Fashion designers are presented with a range of methods and concepts for pattern cutting. The main body of these methods, both traditional and contemporary, is predominately based on a theoretical approximation of the body that is derived from horizontal and vertical measurements of the body in an upright position: the tailoring matrix. As a consequence, there is a lack of interactive and dynamic qualities in methods connected to this paradigm of garment construction from both expressional and functional perspectives. This work proposes and explores an alternative paradigm for pattern cutting that includes a new theoretical approximation of the body as well as a more kinetic method for garment construction that, unlike the prevalent theory and its related methods, takes as its point of origin the interaction between the anisotropic fabric and the biomechanical structure of the body. As such, the research conducted here is basic research aiming to identify fundamental principles for garment construction. Based on some key principles found in the works of Genevieve Sevin Doering and in pre-tailoring methods for constructing garments, the proposed theory for and method of garment construction was developed through concrete experiments by cutting and draping fabrics on live models. Instead of a static matrix of a non-moving body, the result is a kinetic construction theory of the body that is comprised of balance directions and key biomechanical points along with an alternative draping method for dressmaking. This methodology challenges the fundamental relationship between dress garment construction and the body, working from the body outward as opposed to the methods that are based on the prevalent paradigm of the tailoring matrix, which work from the outside toward the body. This alternative theory for understanding the body and the proposed method of

working allows for diverse expressions and enhanced functional possibilities in dress **The Eye** Nathan Williams, 2018-10-30 They're often behind the scenes letting their work take center stage But now Nathan Williams founder and creative director of Kinfolk magazine and author of *The Kinfolk Table* *The Kinfolk Home* and *The Kinfolk Entrepreneur* with over 250 000 copies in print combined brings more than 90 of the most iconic and influential creative directors into the spotlight In *The Eye* we meet fashion designers like Claire Waight Keller and Thom Browne Editorial directors like Fabien Baron and Marie Amélie Sauvage Tastemakers like Grace Coddington and Linda Rodin We learn about the books they read the mentors who guided them their individual techniques for achieving success We learn how they developed their eye and how they've used it to communicate visual ideas that have captured generations and will shape the future As an entrepreneur whose own work is defined by its specific and instantly recognizable aesthetic Nathan Williams has a unique vision of contemporary culture that will make this an invaluable book for art directors designers photographers stylists and any creative professionals seeking inspiration and advice *The Case of Herr Bar Roomski Coneyiskey (an Anarchist)* Harry E.
