E. Aken'Ova,2006      Mediating Legitimacy: Chieftaincy and Democratisation in Two African Chiefdoms Jude Fokwang,2009-02-15 This study analyses the effects of democratic transition in two African countries Cameroon and South Africa on chiefs and the institution of chieftainship Based on ethnographic fieldwork the monograph explores the cultural and socio political conditions that enabled chiefs to reinvent themselves in the new era of democratic politics despite their status as old political actors It explores the kinds of legitimacies claimed by chiefs in the new era and the responses of their subjects to such claims particularly with respect to chiefs involvement in national politics The monograph makes a case for the importance of comparative research on chiefs in the era of democracy and the predicaments they face therein It contends that contrary to exhortations about the incompatibility of chiefs and democracy the reality is that political transition in both South Africa and Cameroon produced contradictions creating space and a role for chiefs in a fascinating and negotiated interplay of legitimacies and history      Psychology. Illustrated with numerous stories collected from Alaska, the Yukon, and South Africa and further enlivened by the author's accessible style and experiences as a longtime oral historian and archivist. *So They Understand* is a comprehensive study of the special challenges and concerns involved in documenting, representing, preserving, and interpreting oral narratives. The title of the book comes from a quotation by Chief Peter John, the traditional chief of the Tanana Chiefs region in central Alaska. In between the lines is something special going on in their minds and that has got to be brought to light so they understand just exactly what is said. William Schneider discusses how stories work in relation to their cultures and performance settings, sorts out different types of stories from broad genres such as personal narratives and life histories to such more specific and less often considered types as presentations at hearings and other public gatherings, and examines a variety of critical issues including the roles and relationships of storytellers and interviewers, accurate representation and preservation of stories and their performances, understanding and interpreting their cultural backgrounds and meanings, and intellectual property rights. Throughout, he blends a diverse selection of stories, including his own, into a text rich with pertinent examples. William Schneider is curator of oral history and associate in anthropology at the Rasmuson Library, University of Alaska Fairbanks, where he introduced oral history jukeboxes, innovative interactive multimedia computer files that present and cross-reference audio, oral history, and related photos and maps. Among other works, his publications include, as editor, *Kusiq: An Eskimo Life History from the Arctic Coast of Alaska* and, with Phyllis Morrow, *When Our Words Return: Writing, Hearing, and Remembering Oral Traditions of Alaska and the Yukon* **Congressional Record** United States Congress, 2003.
