Stokes, Adam Buben, 2011-10-20 Few philosophers have devoted such sustained almost obsessive attention to the topic of death as S ren Kierkegaard Kierkegaard and Death brings together new work on Kierkegaard s multifaceted discussions of death and provides a thorough guide to the development in various texts and contexts of Kierkegaard s ideas concerning death Essays by an international group of scholars take up essential topics such as dying to the world living death immortality suicide mortality and subjectivity death and the meaning of life remembrance of the dead and the question of the afterlife While bringing Kierkegaard s philosophy of death into focus this volume connects Kierkegaard with important debates in contemporary philosophy **Le droit de mourir pour la vérité** Søren Kierkegaard, 1935 **Either/Or, Part I**

Søren Kierkegaard, 2013-04-21 S ren Kierkegaard the nineteenth century Danish philosopher rediscovered in the twentieth century is a major influence in contemporary philosophy religion and literature He regarded Either Or as the beginning of his authorship although he had published two earlier works on Hans Christian Andersen and irony The pseudonymous volumes of Either Or are the writings of a young man I and of Judge William II The ironical young man s papers include a collection of sardonic aphorisms essays on Mozart modern drama and boredom and The Seducer s Diary The seeming miscellany is a reflective presentation of aspects of the either the esthetic view of life Part II is an older friend s or the ethical life of integrated authentic personhood elaborated in discussions of personal becoming and of marriage The resolution of the either or is left to the reader for there is no Part III until the appearance of Stages on Life s Way The poetic reflective creations of a master stylist and imaginative impersonator the two men write in distinctive ways appropriate to their respective positions

Either/or Søren Kierkegaard,1959 S ren Kierkegaard the Danish philosopher is a major influence in contemporary existentialist philosophy In his work he dealt with three levels of existence the aesthetic ethical and religious and the first two of these were his primary concern in this first great work It appears pseudonymously purporting to contain the papers of two men One is a young man who in his aphorisms essays lyrical outbursts and the famous Diary of a seducer brilliantly presents the pleasures of aesthetic life The other is an older man who writes letters discussing marriage and selfhood in which he tries to convince his young friend of the superiority of the ethical life Kierkegaard indicates no choice between the two views the reader is left to make his own decision Back cover

An Analysis of Soren Kierkegaard's Fear and Trembling Brittany Pheiffer Noble,2017-07-05 Danish philosopher S ren Kierkegaard s 1843 book Fear and Trembling shows precisely why he is regarded as one of the most significant and creative philosophers of the nineteenth century Creative thinkers can be many things but one of their common attributes is an ability to redefine reframe and reconsider problems from novel angles In Kierkegaard s case he chose to approach the problems of faith and ethics in a deliberately artful and non systematic way Writing under the pseudonym John the Silent he declared that he was nothing of a philosopher but an amateur wanting to write poetically and elegantly about the things that fascinated him While Fear and Trembling is very much the work of a philosopher Kierkegaard s protests showed his intent to take a different path approaching his topic like no one else before him The book goes on to ask what the real nature of our personal relationship with God might be and how faith might interact with ethics What Kierkegaard asks can we make of God asking Abraham to sacrifice his only son and of Abraham obeying Arguing the unorthodox position that in following God s incomprehensible will Abraham had acted ethically Kierkegaard set out the parameters of a moral argument that remains strikingly novel over a 150 years later

Either/or Søren Kierkegaard,1971 The description for this book Kierkegaard s Writings III Volume 2 Either Or A Fragment of Life will be forthcoming

The Soul of Kierkegaard Søren Kierkegaard,Alexander Dru,2003-03-14 Kierkegaard s journals reflect his further thoughts on the ideas developed in his philosophical and theological works on his

tumultuous career as an author and on his own relationship with his work and readers The primary source for any understanding of either the man or his thought The Times London Literary Supplement Kierkegaard's Journals and Notebooks Volume 10 Søren Kierkegaard, 2018-08-14 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 10 of this series includes the final six of Kierkegaard's important NB journals Journals NB31 through NB36 which cover the last months of 1854 a period when Kierkegaard made the final preparations for and the initial launch of his furious assault on the established church But in addition to this incendiary material these journals also contain a great trove of his reflections on theology philosophy and the perils and opportunities of modernity Kierkegaard Pierre Mesnard, 1970-01-01 T00:00:00+01:00 Qui fut Søren Kierkegaard né le 5 mai 1813 Copenhague petit dernier de six frères et sœurs Très marqué par l'influence de son père qui recherchait la vocation religieuse dans les voies les plus diverses il eut d'abord une vie dissolue et fut marqué par Mozart et Hegel Ses fiancées seulement 27 ans eurent sur sa vie et sur son œuvre une influence considérable Pierre Mesnard nous présente ce philosophe qui occupe dans l'histoire de la pensée occidentale une position exceptionnelle *Kierkegaard* Charles Le Blanc, 1998
