## Mark Scheme Economics June 20paper 1:

**Troublemakers** Stephen Crossley, 2018-04-04 The launch of the Troubled Families Programme in the wake of the 2011 riots conflated poor and disadvantaged families with anti social and criminal families The programme aimed to turn around the lives of the country's most troubled families at a time of austerity and wide ranging welfare reforms which hit the poorest families hardest This detailed authoritative and critical account reveals the inconsistencies and contradictions within the programme and issues of deceit and malpractice in its operation It shows how this core government policy has stigmatised the families it claimed to support Paving the way for a government to fulfil its responsibility to families rather than condemning them this book will empower local authority workers policy makers and researchers and anyone interested in social justice to challenge damaging aggressive neoliberal statecraft

**Rural Planning Futures** Mark Scott, John Sturzaker, Nick Gallent, Gavin Parker, Amy Burnett, Ian Mell, 2025-04-09 Rural Planning Futures charts the critical societal challenges that are reshaping rural places across the UK and Ireland The book evaluates current planning processes and explores the prospects for an enhanced cross sectoral and holistic future practice that mediates rural change towards more resilient and sustainable outcomes Rural places and planning have for too long been viewed as marginal to both the theory and practice of planning However rural places are central to addressing critical global challenges from climate action through nature recovery energy transitions and food security to water quality while also facing more localised conflicts around housing the siting of infrastructure and the challenge of sustaining local services The policy response to these complex challenges has too often been fragmented siloed and fixated on the short term By illustrating how key rural capitals are linked and integrated this book argues for a reset of the rural planning narrative and for the urgent disruption of established ways of working Using innovative case studies the chapters detail how planning for rural places must be guided by the pursuit of social value rather than protecting private interests This book is essential reading for undergraduate and graduate students in planning geography rural studies landscape studies and regional studies
