Le Changement Projet Socialiste:

Structural Crisis and Institutional Change in Modern Capitalism Bruno Amable, 2017-03-16 This book analyses the evolution of the French model of capitalism in relation to the instability of socio political compromises In the 2010s France was in a situation of systemic crisis namely the impossibility for political leadership to find a strategy of institutional change or more generally a model of capitalism that could gather sufficient social and political support This book analyses the various attempts at reforming the French model since the 1980s when the left tried briefly to orient the French political economy in a social democratic socialist direction before changing course and opting for a more orthodox macroeconomic and structural policy direction The attempts of governments of the right to implement a radically neo liberal structural policy also failed in the face of a significant social opposition The enduring French systemic crisis is the expression of contradictions between the economic policies implemented by the successive left and right governments and the existence of a dominant social bloc that is a coalition of social groups that would politically support the dominant political strategy Since 1978 both the right and the left have failed to find a solution to the contradictions between the policies they implemented and the expectations of their respective social bases which are themselves inhabited by tensions and contradictions that evolve with the structural reforms that gradually transformed French capitalism *The Palgrave Handbook of Social Democracy in the European Union* F. Escalona, M. Vieira, 2016-04-30 The nature of social democracy in the countries of the European Union is more significant and better understood than is indicated by the available literature This thought provoking handbook aims to redress this disparity by bringing together Political scientists from across Europe to provide a definitive collection on social democracy in the EU **Des outils pour le changement** Henry Veltmeyer, 2015-08-26 Le monde se dirige t il vers une crise sans pr c dent o se juxtaposent difficult s conomiques sociales cologiques et politiques C est cette question facettes multiples qu examine un collectif de chercheurs de divers horizons Premier constat moins de revoir le mod le de d veloppement actuel et d y apporter des mesures correctives les perspectives d avenir sont plut t inqui tantes Cette crise mondiale marquerait selon ces chercheurs le point culminant d une longue p riode de politiques de d veloppement qui ont en commun d avoir engendr des bouleversements travers le monde notamment dans les pays en d veloppement Une approche plus proactive et critique aux tudes en d veloppement international ainsi qu la fa on dont le d veloppement s labore sur le terrain s av re donc essentielle Publi en anglais d abord Des outils pour le changement Une approche critique en tudes du d veloppement est une r f rence incontournable pour le lectorat francophone Ce recueil comprend 49 brefs modules dont chacun aborde les grands th mes du d veloppement Il est destin tout autant aux th oriciens qu aux professeurs tudients et chercheurs qui s int ressent une approche critique en tudes du d veloppement Qualifi de r alisation remarquable lors de sa sortie en anglais cet ouvrage permet de mesurer l ampleur des tudes du d veloppement en fonction d une approche critique Une conviction commune anime cet ouvrage il est imp ratif de proc der des changements qui favoriseront un progr s v ritable
