Le Coran Au Risque De La Psychanalyse:

Le Coran au risque de la psychanalyse Olfa Youssef, 2009-09-28 On parle beaucoup aujourd'hui de relire le Coran de réinterpréter le Coran de refuser certaines lectures extrêmes. Derrière ces prétentions de principe on trouve le postulat selon lequel il y aurait plusieurs lectures possibles du texte sacré des musulmans. Si cette idée n'est pas nouvelle elle est présente depuis les débuts de l'islam. Rares sont ceux qui en ont exploré les conséquences. La lumière des savoirs modernes. Olfa Youssef, universitaire spécialisée en linguistique, psychanalyste et qui en tant que femme maghrébine a vécu au quotidien les conséquences des interprétations coraniques, emploie ici les outils de la théorie du langage, de la sémiologie et de la psychanalyse pour mettre au jour les structures linguistiques, symboliques et inconscientes du Coran et de ce que ses lecteurs y mettent d'eux-mêmes. Une lecture post-moderne du texte qu'il est indispensable de comprendre notre époque. **Islamic Feminism**

Lana Sirri, 2020-11-29 This book sets out a rationale for the compatibility of Islam and Feminism and shows that Islamic Feminism is a diverse and valuable lens through which to analyse religion and gender. In addition, including scholarship written in Arabic, it promotes the decolonisation of knowledge production around Islam, gender and sexuality. Islamic feminism is a field of study that has been marginalised both in contemporary Islamic discourse and in feminist discourse. This study counters this marginalisation in two ways. Firstly, it enumerates the diversity of approaches used in Islamic feminist scholarship. Secondly, it foregrounds voices that are often neglected in discussions of Islam, gender and sexuality by highlighting and contrasting the work of two key scholars: Kecia Ali based in the USA and Olfa Youssef based in Tunisia. The book suggests that in addition to geopolitical positioning, language as a prior text also influences an individual's personal interpretation of Islamic feminism. This comparison therefore enables broader issues to be dissected, such as the interrelationships between life experiences, strategies of resistance to patriarchal and other forms of oppression and the production of knowledge. This is a unique study of Islamic Feminism that will be of great use to any scholar of Religion and Gender, Islamic Studies, Gender Studies and the Sociology of Religion. **The Routledge Companion to the Qur'an**

George Archer, Maria M. Dakake, Daniel A. Madigan, 2021-09-30 The Routledge Companion to the Qur'an offers an impressive and comprehensive overview of the formative scripture of Islam. Including a wide number of scholarly approaches to the Qur'an by both established authorities and emergent voices, the 40 chapters in this volume represent the latest word on the academic understanding of the Muslim scripture. The Qur'an is spoken of in scholarship across disciplines; it is the beating heart of a living community of believers; it is a work of beauty and a basis for art and culture; it is a profoundly significant historical artifact and it is a mysterious survivor from the Late Ancient Arabic speaking world. This Handbook accompanies the reader into the many worlds that the Qur'an lives in, from its ancient settings to its internal drama and through the 1400 years of discussion and debate about its meaning. Bringing diverse approaches to the Qur'an together in one volume, The Routledge Companion to the Qur'an represents the vibrancy of the field of Qur'anic Studies today. This Handbook is essential.

reading for students and researchers in religious studies and Islamic studies It will also be very useful for those in related fields such as area studies sociology anthropology and history *Women's Activism in Africa* Balghis Badri,Aili Mari Tripp,2017-02-15 Throughout Africa growing numbers of women are coming together and making their voices heard mobilising around causes ranging from democracy and land rights to campaigns against domestic violence In Tanzania and Tunisia women have made major gains in their struggle for equal political rights and in Sierra Leone and Liberia women have been at the forefront of efforts to promote peace and reconciliation While some of these movements have been influenced by international feminism and external donors increasingly it is African women who are shaping the global struggle for women s rights Bringing together African authors who themselves are part of the activist groups this collection represents the only comprehensive and up to date overview of women s movements in contemporary Africa Drawing on case studies and fresh empirical material from across the continent the authors challenge the prevailing assumption that notions of women s rights have trickled down from the global north to the south showing instead that these movements have been shaped by above all the unique experiences and concerns of the local women involved *Translation, Globalization and Translocation* Concepción B. Godev,2017-09-07 This book examines the spaces where translation and globalization intersect whether they be classrooms communities or cultural texts It foregrounds the connections between cultural analysis literary critique pedagogy and practice uniting the disparate fields that operate within translation studies In doing so it offers fresh perspectives that will encourage the reader to reappraise translation studies as a field reaffirming the directions that the subject has taken over the last twenty years Offering a comprehensive analysis of the links between translation and globalization this ambitious edited collection will appeal to students and scholars who work in any area of translation studies
