Le Géacutenie Romain Dans La Religion La Penseacutée Et L'art:

Les chrétiens et l'Empire romain Marta Sordi, 2015-04-01 **Le génie romain dans la religion, la pensée et l'art** Albert Grenier, 1925 Le Génie romain dans la religion, la pensée, l'art Albert Grenier, 1969-09-17 Le but d'Albert Grenier professeur au Collège de France puis directeur de l'école Française de Rome consiste dans cet ouvrage d'terminer le germe psychique du génie romain. Celui-ci sans doute résulte de multiples ethniques et de certaines conditions de vie mais il se manifeste un moment donné dans l'histoire et l'on peut suivre le génie de ce peuple travers les influences diverses avec lesquelles il a dû composer. Les traits dominants du Romain sont le sens pratique la volonté et l'action. Ce pragmatisme essentiel marque son empreinte sur la religion la littérature et l'art d'un fait d'imagination poétique ou plastique ou métaphysique le Romain applique aux pratiques religieuses l'esprit juridique qui est chez lui très développé. Il n'a d'attention que pour ce qui est susceptible d'application pratique dans les lettres par exemple il est d'abord intéressé par la législation la loquacité l'histoire. Ce livre est une importante étude de psychologie historique conduite avec sympathie et enrichie grâce à une connaissance approfondie du sujet. On peut connaître Rome de bien des façons mais il faut avoir lu l'œuvre d'Albert Grenier pour connaître les Romains.

Chrétiens persécuteurs Marie-Françoise Baslez, 2014-05-13 Si clairement dans l'histoire des religions le IV^e siècle voit le christianisme passer de religion minoritaire et persécutée à religion tolérée et tolérante puis officielle et parfois répressive partir de Constantin I^{er} en effet des persécutions ont tenté d'exercer la fois contre des chrétiens hérétiques les païens et les juifs considérés comme des ennemis de l'ordre. Ces répressions nous interrogent encore aujourd'hui. Quand une religion est établie en position dominante avec la possibilité d'utiliser le bras séculier dans une confusion du religieux et du politique devient elle nécessairement intolérante et répressive. Plusieurs religions et notamment plusieurs monothésismes peuvent-ils coexister. Un monothésisme par définition exclusif est-il intrinsèquement intransigeant voire fanatique. Dans le champ très actuel de l'histoire des représentations on a beaucoup critiqué sur la persécution en se fondant principalement sur les sources apologétiques. Cet ouvrage collectif s'attache au contraire à analyser dans leur contexte toutes les sources disponibles archéologiques aussi bien que littéraires et juridiques chrétiennes aussi bien que juives ou païennes. Ainsi ces études de cas invitent elles réfléchir sur la notion même de persécution en confrontant la loi son application l'idéologie aux actes en faisant la part d'un discours convenu tant sur les victimes que sur les destructions. **Le génie romain dans la religion**, 1969* Heirs of Roman

Persecution Éric Fournier, Wendy Mayer, 2019-10-10 The subject of this book is the discourse of persecution used by Christians in Late Antiquity c. 300-700 CE. Through a series of detailed case studies covering the full chronological and geographical span of the period this book investigates how the conversion of the Roman Empire to Christianity changed the way that Christians and para-Christians perceived the hostile treatments they received either by fellow Christians or by people of other religions. A closely related second goal of this volume is to encourage scholars to think more precisely about the terminological difficulties related to the study of persecution. Indeed despite sustained interest in the subject few scholars

have sought to distinguish between such closely related concepts as punishment coercion physical violence and persecution Often these terms are used interchangeably Although there are no easy answers an emphatic conclusion of the studies assembled in this volume is that persecution was a malleable rhetorical label in late antique discourse whose meaning shifted depending on the viewpoint of the authors who used it This leads to our third objective to analyze the role and function played by rhetoric and polemic in late antique claims to be persecuted Late antique Christian writers who cast their present as a repetition of past persecutions often aimed to attack the legitimacy of the dominant Christian faction through a process of othering This discourse also expressed a polarizing worldview in order to strengthen the group identity of the writers community in the midst of ideological conflicts and to encourage steadfastness against the temptation to collaborate with the other side Chapters 15 and 16 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Great Persecution Min Seok Shin, 2018 The Great Persecution under Diocletian and his imperial colleagues and successors is a foremost concern of modern scholarship on Roman persecution of Christians This book is a systematic and comprehensive study of that persecution Its focus is on events from 284 when Diocletian became emperor to 313 when full religious liberty was granted to all religions by the so called Edict of Milan At least nine imperial orders were issued in 303 to 312 against Christianity While Diocletian's orders were more concerned with the privileged upper classes of Christians Maximinus Daia's orders were aimed at isolating all Christians from the Roman community The enforcement of the imperial orders and the sufferings of Christians under them are examined on a diocese by diocese basis comparing the situation in the West and in the East In the late fourth century Prudentius of Calahorra poet and imperial official complained about the loss of records on local martyrs exclaiming Alas for what is forgotten and lost to knowledge in the silence of the olden time We are denied the facts about these matters the very tradition is destroyed This book draws together the remains of what Prudentius feared was forgotten for ever *Persecution Christianisme Dans L'empire Romain* Jacques Moreau, 1956 *Le génie romain dans la religions, la pensée et l'art* Albert Grenier, 1969

Christian Persecution in Antiquity Professor of Church History Wolfram Kinzig, 2021-09-15 For centuries into the Common Era Christians faced social ostracism and suspicion from neighbors and authorities alike At times this antipathy erupted into violence Following Christ was a risky allegiance to be a Christian in the Roman Empire carried with it the implicit risk of being branded a traitor to cultural and imperial sensibilities The prolonged experience of distrust oppression and outright persecution helped shape the ethos of the Christian faith and produced a wealth of literature commemorating those who gave their lives in witness to the gospel Wolfram Kinzig in *Christian Persecution in Antiquity* examines the motivations and legal mechanisms behind the various outbursts of violence against Christians and chronologically tracks the course of Roman oppression of this new religion to the time of Constantine Brief consideration is also given to persecutions of Christians outside the borders of the Roman Empire Kinzig analyzes

martyrdom accounts of the early church cautiously drawing on these ancient voices alongside contemporary non Christian evidence to reconstruct the church s experience as a minority sect In doing so Kinzig challenges recent reductionist attempts to dismantle the idea that Christians were ever serious targets of intentional violence While martyrdom accounts and their glorification of self sacrifice seem strange to modern eyes they should still be given credence as historical artifacts indicative of actual events despite them being embellished by sanctified memory Newly translated from the German original by Markus Bockmuehl and featuring an additional chapter and concise notes *Christian Persecution in Antiquity* fills a gap in English scholarship on early Christianity and offers a helpful introduction to this era for nonspecialists Kinzig makes clear the critical role played by the experience of persecution in the development of the church s identity and sense of belonging in the ancient world
