March Common Paper Memorandum 2014

Adam Fletcher

March Common Paper Memorandum 2014:

The Order of Canada Christopher P. McCreery, 2018-05-04 In 1966 a project to create a national honour for Canadians was begun The order recognizes individuals for their outstanding achievements dedication and service to the country It is a product of national identity politics and history and includes such individuals as Atom Egoyan Joseph Boyden and Louise Arbour The second edition of The Order of Canada continues the celebration of the order Christopher McCreery sheds new light on the development of Canadian honours in the early 1930s the imposed prohibition on honours from 1946 to 1967 and new details on those who have been removed or resigned from the Order Extensively illustrated The Order of Canada pays tribute to the individuals who felt the need for a system of recognition for Canadians Indeed the order s history is as fascinating as the more than four thousand Canadians who have received it

Australia's Human Rights Scrutiny Regime Adam Fletcher, 2018-09-17 In 2010 the Australian Government decided that it would not propose a Human Rights Act despite the relevant recommendation of the 2008 09 National Human Rights Consultation Instead it introduced a Human Rights Framework comprising several measures to enhance human rights protection including the Human Rights Parliamentary Scrutiny Act 2011 The scrutiny regime under that Act was designed to ensure rights would be given due consideration before Commonwealth legislation was passed The Act created a unique bipartite dialogue system involving a formal interchange on rights compatibility between the executive and Parliament while excluding the courts This set the Commonwealth apart from jurisdictions such as the ACT Victoria New Zealand and the UK which have statutory rights instruments administered by their courts The book presents a detailed study of all aspects of the scrutiny regime and compares the regime with its closest counterparts overseas In assessing the regime s impact it argues that a system in which the executive and Parliament are responsible both for protecting rights and for remedying rights breaches is neither more legitimate nor more effective than one involving all three branches of government Accordingly it calls for strengthening reforms

The Wilmington Ten Kenneth Robert Janken, 2015-10-22 In February 1971 racial tension surrounding school desegregation in Wilmington North Carolina culminated in four days of violence and skirmishes between white vigilantes and black residents The turmoil resulted in two deaths six injuries more than 500 000 in damage and the firebombing of a white owned store before the National Guard restored uneasy peace Despite glaring irregularities in the subsequent trial ten young persons were convicted of arson and conspiracy and then sentenced to a total of 282 years in prison They became known internationally as the Wilmington Ten A powerful movement arose within North Carolina and beyond to demand their freedom and after several witnesses admitted to perjury a federal appeals court also citing prosecutorial misconduct overturned the convictions in 1980 Kenneth Janken narrates the dramatic story of the Ten connecting their story to a larger arc of Black Power and the transformation of post Civil Rights era political organizing Grounded in extensive interviews newly declassified government documents and archival research this book thoroughly examines the 1971 events and the

Framing the Threat Imke Köhler, 2019-03-04 There is great power in the use of words words create most of what we consider to be real and true Framing our words and narratives is thus a tool of power but a power that also comes with limitations This intriguing issue is the topic of *Framing the Threat* an investigation of the relationship between language and security and of how discourse creates the scope of possibility for political action In particular the book scrutinizes and compares the security narratives of the former US presidents George W Bush and Barack Obama It shows how their framings of identity i e of the American self and the enemy other facilitated a certain construction of threat that shaped the presidents detention and interrogation policies By defining what was necessary in the name of national security Bush s narrative justified the operation of the detention center at Guantanamo Bay and rendered the mistreatment of detainees possible a situation that would have otherwise been illegal Bush s framings therefore enabled legal limits to be pushed and made the violation of rules appear legitimate Obama in contrast constructed a threat scenario that required an end to rule violations and the closure of Guantanamo for security reasons According to this narrative a return to the rule of law was imperative if the American people were to be kept safe However Obama s framing was continually challenged and it was never able to dominate public discourse Consequently *Framing the Threat* argues Obama was unable to implement the policy changes he had announced
