**Demarketing** Nigel Bradley, Jim Blythe, 2013-10-23 We all understand the basic principles underpinning marketing activity to identify unfulfilled needs and desires and boost demand for the solutions a product is offering. The mantra is always sell more. De marketing tries for the very opposite. Why would a company actively try to decrease demand? There are many good reasons to do so: a firm cannot supply large enough quantities or wants to limit supply to a region of narrow profit margin. Or crucially to discourage undesirable customers, those that could be bad for brand reputation or in the case of the finance sector, high risk. De marketing can yield effective solutions to these issues effectively curtailing demand yet crucially not destroying it. Nevertheless the fundamental negativity of de marketing

strategies often causes organisations to hide them from view and as a result they are rarely studied This then is the first book to cast light on the secretive counterintuitive world of de marketing deconstructing its mysteries and demonstrating how to incorporate them into a profit driven marketing plan A selection of thought leaders in strategic marketing mix theory with illustrative global cases providing insight into how these strategies have been employed in practice and measuring their successes and failures It s a must read for any student or researcher that wants to think differently about marketing

**Management of Marketing** Paul Reynolds, Geoff Lancaster, 2005-06-02 The text provides information on the core elements of the subject of marketing without the depth that often surrounds these to ensure that the basic concepts are easily identifiable and accessible Students on MBA courses often do not have time to read a long text as they are studying many subjects therefore they require a good basic guide pitched at the appropriate level to be able to be absorbed quickly but still provide enough of a strategic element to stretch them Written by a successful author team Management of Marketing covers the key topics of the marketing component of an MBA course and provides a good balance of theory and application to ensure both aspects of the core concepts are covered
