Advantage Diane Therese Putney,2004 American air power is a dominant force in today s world Its ascendancy evolving in
the half century since the end of World War II became evident during the first Gulf War Although a great deal has been
written about military operations in Desert Shield and Desert Storm this deeply researched volume by Dr Diane Putney
probes the little known story of how the Gulf War air campaign plan came to fruition Based on archival documentation and
interviews with USAF planners this work takes the reader into the planning cells where the difficult work of building an air
campaign plan was accomplished on an around the clock basis The tension among air planners is palpable as Dr Putney
traces the incremental progress and friction along the way The author places the complexities of the planning process within
the context of coalition objectives All the major players are here President George H W Bush General H Norman Schwarzkopf
General Colin Powell General Chuck Horner and Secretary of Defense Richard Cheney The air planning process generated
much debate and friction but resulted in great success a 43 day conflict with minimum casualties Dr Putney s rendering of
this behind the scenes evolution of the planning process in its complexity and even suspense provides a fascinating window
into how wars are planned and fought today and what might be the implications for the future C R Anderegg Director of Air
